Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
Other comments (bus and rail service reductions):
Hi,
I want to express my concern over the proposed changes to Route 21 (Coraopolis) and Route 28X (Airport Flyer). Our company is dedicated to creating and maintaining communication aids for individuals with communication disabilities all over the world. The work we do is critical for the society, and any disruption to our ability to get to work could have far-reaching consequences for the people who rely on our products.
These routes may not be a requirement for my daily commute since I am fortunate enough to have access to my own vehicle, but some of my cohort (and many who may use our devices, friends who are not as fortunate or through illness or disability have lost the ability to drive themselves) use these routes on a daily or near daily basis. The proposed changes to the bus routes will not only affect our employees but also the thousands of individuals who depend on our services worldwide.
I respectfully request that you reconsider the decision to reduce the frequency and availability of these bus routes. Ensuring that there is at least one bus in the morning and one in the evening during business hours would help mitigate the impact on our employees and allow us to continue our important work without disruption.
Your support in maintaining these essential bus services is crucial for our community and the people we serve. Thank you for your understanding and consideration.
Best regards,
Sarah Holt

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Roads would become more unsafe (see other comments below)
Other comments (bus and rail service reductions):
If service ends at 11pm everyday, people who go out drinking after that point will be more tempted to drive drunk. Bus and light rail services are essential to keep traffic congestion down, imagine what the roads would be like after a Pens or Stealers game if it ends after 11. This is just an issue of convenience, the roads will be significantly less safe if these service changes take place.

Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
If the something needs to be changed please raise the fare prices before you completely eliminate a public transportation service that people have literally built their livelihoods around. It is likely hard to quantify the true scope of impact these changes will have on our community but trust me if Silver trolley line gets cut, A LOT of money will stop flowing into downtown and north shore and all of the remaining park and ride lots available will become insanely congested. Please DO NOT cut the Silver line!
Please indicate if you oppose or support the proposed fare increases:

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 21 CORAOPOLIS (Major Reduction), 28X AIRPORT FLYER (Major Reduction), 38 GREEN TREE (Elim.), 39 BROOKLINE (Elim.), 40 MOUNT WASHINGTON (Elim.), 74 HOMEWOOD-SQUIRREL HILL (Major Reduction), 77 PENN HILLS (Major Reduction), 79 EAST HILLS (Major Reduction), 81 OAK HILL (Major Reduction), 91 BUTLER ST (Major Reduction), G3 MOON FLYER (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to move to another home/dwelling where transit is available
Other comments (bus and rail service reductions):
I am deeply concerned about the proposed changes to especially Route 21 (Coraopolis) Route 28X (Airport Flyer), and especially the Moon Flyer. These routes are crucial for my daily commute, as well as for hundreds of my colleagues, where our company develops and repairs advanced communication aids for thousands of individuals with communication disabilities all over the world.
The reduction in service will make it difficult for many employees to get to work, potentially disrupting the essential services we provide. Please consider maintaining at least one bus in the morning and one in the evening during business hours to support our community and the people who rely on our work.
Pittsburgh needs public transit, otherwise many of its businesses will crumble, and people's lives will be decimated. I know eliminating the moon flyer would mean at least a double digit number of employees at my company would need to find new work. Please reconsider this decision.
Thank you for your attention.
Ryan Veneziano

Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
These service cuts would greatly impact my community and the many residents that depend on this valuable service.
Other comments (bus and rail service reductions):
The T and silver line run directly through Bethel Park. It serves as a low cost form of transportation for many in the community. The silver line is lined with apartment communities and many housing developments. It ends in Library, PA with direct access to a housing and apartment community. I am the owner of a local business, Presenting Pittsburgh. We work with companies when they are recruiting talent to the Pittsburgh region. Having access to robust, quality and affordable public transportation is cited as a desire for many of those moving to our region. Decreasing access to the T as well as the elimination of many bus routes would be detrimental to the Pittsburgh region and inhibit its ability to attract and retain talent. I would urge the PRT management to look at other ways to reduce costs and increase the budget instead of cutting a vital lifeline to many communities throughout our region. You should be looking at ways to increase ridership and expand services instead of completely cutting services off to communities.

Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
I would have to take ACCESS instead of fixed route service
Other comments (bus and rail service reductions):
I live on Braddock Road in Forest Hills and bought this house so that I could take a direct bus route to work at Carnegie Library of Pittsburgh, where I've been employed for the last 2N/A years in various branches and Main. PRT's proposed plan to address their funding deficit will be devastating to me if it comes to pass. I am disabled and cannot drive a car. Your proposed reduced service to my direct route (69 Trafford) would be devastating to me and would impact my ability to get to work and the doctor and earn money to support our economy. Your proposed cuts to my express routes to the Busway (P76 and P69) would remove my other ways to get to work. If the 69 is cut due to the proposed busline redesign that is seeking funding, and you've cut the P76 and P69, I will have no way to get to work during the week - not to mention when I have to work a weekend day. I'm asking you to please do all you can to protect my access to transit to be able to participate in things like work and healthcare, etc. Thank you!

Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
I have Epilepsy and am unable to drive a car. Currently I spend 1 hour and 45 minutes travel time taking 2 buses just to get to work daily, (the 44 Into town then any 61 to squirrel Hill.) Public transportation is my ONLY means of travel.

First Name: Shannon **Last Name:** Flanigan **Email Address:** shannonflanigan874@gmail.com
How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
4-5 days per week
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Home
Work or job training
Shopping
Medical care/appointments
Entertainment
Social activities
How do you identify yourself? Select all that apply.
White
What is your age?
45-54
How would you describe your gender identity? Select all that apply.
Woman
Which of the following best describes your 2024 household income?
$25,000 to $49,999
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
This is absolutely insanity, under no circumstances is this going to work. I don't have a car. I and many other people need these buses and other forms of transit. Please DON'T CUT THE BUSES!!!!
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel
Other comments (bus and rail fare increases):
The fares are already high enough. Stop raising the fare.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I won't be able to depend on a guaranteed ride
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel or rely on a family member or friend
Other comments (ACCESS service reductions):
The elderly and disabled people need ACCESS. Please don't raise the fares or cut service.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to move to another home/dwelling where transit is available
Other comments (bus and rail service reductions):
I live in Mt. Lebanon and eliminating the 36, 38, and 41 leaves us with only the T as a transit option. I live a 2N/A minute walk from the T, but all three of these buses stop right outside my apartment within a block. That's why I chose to live here. If all three routes are cut I will have to move, which feels like an impossible thing with housing prices so high. I understand some cuts may need to be made, but please leave us at least one route in Mount Lebanon. Please don't leave us or any other neighborhood cut off from bus service entirely.
Please indicate if you oppose or support the proposed fare increases:

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
Thousands of people across the city, including myself, will be heavily impacted by the proposed changes to PRT. I rely on public transit on a daily basis. I use it to get to school every day, and I also use it to get to work, and with the proposed changes it would take me nearly double the amount of time to get there and cost double the price. For others, they may not be able to get to work at all. There are only 2 bus lines in the entire city that will remain unaffected by this change, every other line is either being reduced or eliminated. Something must be done.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases

OPPOSE: P10 ALLEGHENY VALLEY FLYER (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
P1N/A bus travels from Harrison to Pittsburgh. Eliminating this service will cause so many people that use the P1N/A to be transported to Pittsburgh for work, shopping and doctor's appointments. I my self can't afford to drive to Pittsburgh due to gas prices and parking in Pittsburgh is expensive. Traveling Route 28 is dangerous due to the number of cars on the road and all the accidents. The P1N/A is normally crowded when I take the bus. I get on in the AM at the Harmar Park & Ride at 7:4N/A am and return home from Pittsburgh on the 4:48PM which is all crowded. Please do not eliminate the P1N/A.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
If the Number 4 bus was eliminated it would make my neighborhood, Troy Hill, even more isolated than it already is. Troy Hill is a food and medical services desert. It does not have adequate food or pharmacy and without the bus, I won't be able to get groceries nor medications from a pharmacy. Many, many residents need to use the bus to get to work and there are no other options for us here on the Hill. We need the number 4 bus.

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I recently moved here from a state that is trying to compile $B's to build light rail system and Pittsburgh is so fortunate to have an existing system, please do not make the mistake of dismantling it by eliminating the Silver Line. With fewer people working downtown, I appreciate that ridership is down but residents here to fully grasp other benefits and uses since they've taken it for granted.
A good cross promotion marketing campaign with the Steelers and Pirates organizations, restaurants and shops along the line, I feel strongly could drastically increase ridership. Cross promotion with the bicycle trail organizations also could increase ridership. How many bicycle tourists arriving in Pittsburgh on the Great Allegheny Passage or other bike trail know they can step onto the Silver Line downtown, with their bicycle, and take it to the Library Station where they are feet from the Montour Trail they can then ride all the way to WV and OH?
Please keep the Silver Line open and increase fares if necessary. Please open a dialogue with businesses downtown and along the Line who will recognize the mutual benefit. Those businesses may be willing to offer discounts for patrons that use the Line to get there in exchange for promotion by PRT or simply for community goodwill.
Please don't do what many states have done and dismantle the light rail system. So many of those states are now trying to get them back, but the cost to restart or build new is astronomically higher than maintaining an existing system. Most will never get back what Pittsburgh already has.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
This service change would change everything ive done or known to do in my life as of now. As a highschooler learning to drive with prices constantly increasing the bus is my one way ticket to school work and many more places. With the increase of price and service reductions it would be very hard to do important things like work or attend school.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Public transit should be easily affordable for everybody. $3 a bus is outrageous

I would no longer be able to get to school, daycare, or childcare
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Cutting funding and bus routes will be detrimental to the communities housed in the heart of Pittsburgh that so many of us have grown to know and love. Considering myself, my family, and my friends, we all rely on Pittsburgh Transit in some way. Whether it be to commute to work, school, or even to run groceries or hang out with friends. Many people would lose reliable transportation to their sources of income, education, and to bond with others. Earth would also suffer heavily from increased greenhouse gas emissions per person. With Transit, more people can hitch a ride on the same bus, leading to less emissions per person. Without this, people would have to use cars more often, or simply have to accept the fact that they no longer have affordable transportation.
Please indicate if you oppose or support the proposed fare increases:

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
6+ days per week
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Home
Work or job training
School
Shopping
Entertainment
Social activities
How do you identify yourself? Select all that apply.
Black or African American
What is your age?
17 or younger
How would you describe your gender identity? Select all that apply.
Woman
Which of the following best describes your 2024 household income?
Prefer not to respond
Including yourself, how many people live in your household? 5-6
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to take ACCESS instead of fixed route service
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Public Transportation reduces air pollution and slows climate change. Cars on the road are reduced. Maybe the costly investment in a vehicle is not even necessary. Public Transportation is a win win for all!
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
Rather than routes being cut, I would prefer a fare increase.
Please indicate if you oppose or support the proposed changes to ACCESS service:

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Most of the buses take 3N/A minutes to get downtown. Increased wait times will affect people trying to get to work after school or going somewhere at a specific time. All buses need to run after 11 pm to prevent people being stuck somewhere without another way to get home.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Raising the fare 25 cents isn't bad but also not needed. $2.75 is just so easy to have.

Service change impacts (ACCESS)
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I won't be able to depend on a guaranteed ride
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel or rely on a family member or friend
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
These reductions would add potential hours to my trips, restrict other trips entirely, and affect many of my friends who have important medical and family needs that they couldn't get to. It flies in the face of the reason for having Access in the first place.

Access is meant to aid in the care and freedom of differently abled people, and these restrictions limit those rights and penalize innocent people.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
I would not be able to afford the increased fares

I would take less ACCESS trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
I take Access daily, and the fare increases would really add up and start to hurt me financially. I would be taking Access a lot less. And a large percentage of its riders have it way worse than I do.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Please do not eliminate the silver line. This would add additional time to and from my work location. I currently travel from library station to wood street 5 days a week. It would not be fair to the silver line riders that we would be paying the same fare as the red and blue line riders but being inconvenienced by having to ride the silver line from library and exiting at washington junction and then having to board a red or blue line to get to downtown and having time added to our travels. Currently it takes me 1 hour and 45 minutes to get from wood street to library station where previously it only took 5N/A minutes. A solution might be to have the blue line continue as it is and to combine the red and silver lines. The red line could follow the red line from downtown until washington junction and then go on to the silver line to library. This way all stations could still be serviced. I don't think that the red and blue lines both need to go to south hills village. I support the fare increase if you do not eliminate the silver line.

I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I have a severe anxiety disorder and not able to drive. I've relied on public transportation my literal entire life if these changes are put into place I will lose the bus that I have access to and I will not be able to get to work doctors appointments or social events.

I also have a son with special needs. He is 16 and he will not be able to drive either. He has autism and an intellectual disability. He is going to need to rely on public transportation to get around as well to. This is literally taking away independence from the both of us.

Oppose or support specific reductions.
OPPOSE: 39 BROOKLINE (Elim.),
Service change impacts (bus and rail):
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Qualiaty of life is an important consideration and is at stake here.
Other comments (bus and rail service reductions):
More and more it feels like people don't count in the United States and now in Pittsburgh.
I hear your side that cost reduction is needed because of a budget problem. Do you hear the other side that creating a transportation desert is an unacceptable disservice to Pittsburghers.
I oppose the elimination of the historic 39 Brookline route. Did you know that route started in 19N/A5. This route has been running 12N/A years. As far as I can see only 4 other lines are older.
During the weekdays the 39 Brookline bus is standing room only. What do you expect the riders to do? With budget considerations I understand the need to raise the fare somewhat and to reduce the frequency of service but NOT to ELIMINATE it! Perhaps the fare should increase a little bit for the next few years. Rather than eliminating service thereby creating a transportation desert, I suggest a compromise.

- Weekdays: Maybe every two hours so the driver can share another line also offering service every two hours. This is my first choice.
- Or maybe drop to service 4 times a day so the community isn't left completely stranded. Obviously, scheduled throughout the day both inbound and outbound.
- Weekends: This reduced schedule needs to include weekends. Perhaps every 3 hours or 3 times a day but weekends are needed (perhaps 8 AM. 1 PM., 6 PM timeframe). I depend on the bus for symphonies on Sunday afternoons and for the theatre. Uber, Lyft, or ZIP Trip would be prohibitively expensive. Others may have to work on week-ends.

Find a compromise and don't eliminate the route! Please! The residents need it! I need it!
Don't leave us stranded. KEEP 39 Brookline, even if it's on a greatly reduced schedule. In reality I believe all routes should be kept albeit with a reduced schedule.
Please indicate if you oppose or support the proposed fare increases:

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
4-5 days per week
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Home
Work or job training
School
Social activities
How do you identify yourself? Select all that apply.
Black or African American
What is your age?
17 or younger
How would you describe your gender identity? Select all that apply.
Woman
Which of the following best describes your 2024 household income?
Prefer not to respond
Including yourself, how many people live in your household? 3-4
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I am a business owner and I specifically choose an office location on a bus line to be more accessible. I may loose business or need to think about moving locations which would be very costly.
Other comments (bus and rail service reductions):
Pittsburgh needs much more public transit, not less. I would use it if it were available in my area but it's not. It would be my first choice if I had the option
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Public transit should be free for all Allegheny County resides. I would support taxes for this.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
I am a Healthcare provider and some of my patents depend on access to get care. I am very grateful for the service because it has had major impact on the lives of several patients I know. To reduce availability of this is cruel, uncaring, and wrong.
Other comments (ACCESS service reductions):
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
There are a lot of people that rely on transportation through the port authority. A lot of people. A lot of people are going to be pissed. That is a lot of bus routes to be eliminated. It's going to hurt so many people.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel
Other comments (bus and rail fare increases):
A rate hike is unnecessary because the funding is getting cut. There has to be something someone can do.

Other comments (ACCESS service reductions):
My mother in law has relied on ACCESS to travel to medical appointments when she was unable to travel on her own. She moved from the uniontown area to Monroeville specifically because of the increased access to care. The proposed cuts would make this service a much higher barrier.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
Many ACCESS riders receive SSI/SSDI. I think about how tight a budget with $950 monthly income is - $316 rent, $100 utilities, $100 food, $100 medical, $106.50 monthly bus pass, that leaves ~$220 for miscellaneous costs (not factoring in any childcare, pet needs, personal care items, subscriptions or other travel expenses). Please consider this when making cuts and fare increases!

I'm a college student and I work over the summer in Pittsburgh and I am HEAVILY reliant on lines that are being eliminated. Not to mention raising fares would be hard for me. Also when I was younger I went to a high school in downtown where I used those lines daily and I know that school is still reliant on those lines.
Other comments (bus and rail service reductions):
Please do not reduce things. I know budget cuts are necessary but find other ways. Too many people are reliant on the public transit. These changes will impact more people than you know. I beg to not close lines, we need those and not all of us have the luxury of an alternative form of transportation available.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The service reductions are incredibly disheartening to see, especially at a time where we need to be building our infrastructure for public transportation, not losing it. I do not support these reductions for the following reasons:
1. Climate Change. The major storms that swept through Southwestern PA in early May and left hundred of thousands of local people without power for up to a week are just one indicator of our changing climate. Studies keep showing that, in order to minimize the number and intensity of weather-related disasters we are expected to experience in coming years, we need to reduce our carbon emissions. Reducing our reliance on private vehicles is an enormous part of that and something I'm very concerned about.
2. Traffic and congestion. With fewer public transport options, the traffic in and around Pittsburgh will get worse, as will parking options in already-congested areas, such as downtown.
3. Culture, nightlife, and safety. Great cultural and social options make a great city. I am concerned that, without reliable options to arrive and depart from such attractions, especially those in highly-congested and difficult-to-park areas, (1) those attractions will whither, and/or (2) people will more frequently make the unsafe choice to drink and drive.
Thank you.

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
4-5 days per week
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Work or job training
How do you identify yourself? Select all that apply.
Black or African American
What is your age?
18-24
How would you describe your gender identity? Select all that apply.
Woman
Which of the following best describes your 2024 household income?
Prefer not to respond
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
Other comments (bus and rail service reductions):
The proposed cuts will cause greater harm and economic loss than any savings we would gain.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
Lower costs incentivize more people to use public transit.
Other comments (bus and rail fare increases):
A stronger public transit system makes the Greater Pittsburgh area a stronger community overall, and encourages people to move to and stay in the community.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
This could cause vulnerable people to just die.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
If people can't afford the fare, their health would be negatively impacted.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 4 TROY HILL (Elim.),
Service change impacts (bus and rail):
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Eliminating the #4 from Troy Hill & Reserve Township would cut many people off from needed amenities like groceries, doctors, libraries and more. NONE of these things are available in this area. There are elderly people who do not have cars and take the bus to get groceries. What will they do?
Personally, it would cost me extra money as I would have to drive to work and pay for parking, as well as additional gas and mileage on my car. Please do not eliminate this very needed bus route!!!!

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
Other comments (bus and rail service reductions):
The service of our bus system is already very poor. In order to guarantee that you arrive at a location by a specific time, you need to take the bus PRIOR to the one that would actually get you there on time. The 54 is especially egregious (and i know that you guys want to cut it entirely, unbelievably unacceptable). People use the buses to get to work and school. CHILDREN use these buses to get to school. I oppose these cuts because they greatly harm the people of Pittsburgh and will decrease tax revenue as people lose their jobs due to loss of transportation.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
Fare increases are understandable given the lack of funding. I'm very interested in what the heck happened budget-wise.

I would no longer be able to get to my current job, training location, or will have to find a new job
Other comments (bus and rail service reductions):
Yes I take the P76 Lincoln Highway bus weekly. This route is going to be cut, if so I can't get the bus to work downtown Pittsburgh. Also I'm concerned for others who rides along with me and others who loves in the area white oak/ McKeesport. This route is very important and convenient for those on this side of town. I thank you for this route and I beg you to keep this route. Thank you God bless!!
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
Other comments (bus and rail fare increases):
Increase always falls on the working class. It seems like that's the only answer now days (charge the consumer more) pretty soon the working class will have no money to pay for anything. My route might be cut and asking for more money for fares is outrageous to me. Please be considerate before making a final decision.. Thanks

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The flyer services are the only way to avoid driving that provide access to workers in downtown. Employers are already pushing back against remote work so more frequent commuting is required. Without these bus routes, traffic, parking availability, crime, and pollution would all be negatively impacted.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):

Oppose or support specific reductions.
OPPOSE: 1 FREEPORT ROAD (Major Reduction), 4 TROY HILL (Elim.), 6 SPRING HILL (Major Reduction), 7 SPRING GARDEN (Elim.), 12 MCKNIGHT (Major Reduction), 28X AIRPORT FLYER (Major Reduction), 54 NORTH SIDE-OAKLAND-SOUTH SIDE (Major Reduction), 64 LAWRENCEVILLE-WATERFRONT (Major Reduction), 87 FRIENDSHIP (Major Reduction), 88 PENN (Major Reduction), 91 BUTLER ST (Major Reduction),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Our northside buses are already so few and far between- once an hour tops is really hard to work with. If you eliminate these routes so many people will be truly stuck. Access is unreliable as well and with the proposed school changes for PPS, kids are gonna end up not being able to even go to school. It's scary to imagine the impact.

Other comments (bus and rail service reductions):
The route elimination that would impact me personally is the 38 line. However, Pittsburgh (and its surrounding areas) is uniquely designed in such a way that walking and biking to get from neighborhood to neighborhood is not an option for most people (hills, a lack of sidewalks, circuitous routes, etc). The public transit system - which is already worse than most major cities in terms of frequency and service areas - is the only option for working class residents. These proposed eliminations would cripple much of its population in terms of navigating the area.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
I have been a bus rider every day for the last four years whether it is to get to work or for recreation. The proposed reductions would harm not only those who are currently living and working here, but would diminish Pittsburgh's capacity for growth. People moving here want a functional and useful public transportation system. We must invest in this, and indeed, grow it, rather than cut it. There are few meaningful ways to get from the northside to Oakland without transfers or waiting long periods for the 54. This is just one example. Do not cut PRT, expand PRT, for the people of Pittsburgh and for the future of the city.

I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to move to another home/dwelling where transit is available
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Elimination of the P67 when it has already been significantly reduced over the years is a hardship for a perpetually declining area. It appears all other buses to Downtown from the East suburbs are being eliminated. My only options are: (1) move to another part of Pittsburgh with bus service; however there is no level of trust that those areas will retain bus service going forward, or (2) find a work-from-home/remote job; however these jobs do not come up in searches for my skillset. This is a devastating loss for me and my life will need to change drastically.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
PRT needs to understand that they are providing a service ! It's not to be a " money making" endeavor ! It is so people can get from point A to point B and back again. I read in the beginning of this survey that PRT have done the only possible thing they can do is cut service or raise fares ! How about cutting the CEO and the other administration people's salary?! How about not having 2 workers doing a maintenance issue and have 1N/A others " supervising"?? In regard to the red and Silver lines - do you NOT know how many people ride the rail lines to the Pitt, Steeler and Pirate games?!They recently grinded the rails on the silver line - why bother if going to eliminate it? Have you looked at the price to park a car downtown? Sometimes it's $4N/A on a Saturday afternoon when my aunt comes to meet me to go to a theatre show!
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I think it's humerous that when there are rail shuttles bc of mechanical
issues - you don't have to pay or the T is over crowded due to a Taylor Swift concert or if the fare box isn't working but PRT is worried about financial issues . Like I said above - PRT is to get people from point A to B (and even C in some cases) ! It's NOT (and shouldn't be) a money making operation.

Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
I am a casual PRT rider. Lack of convenience/accessibility of public transit will make me less likely to ever use it.
Other comments (bus and rail service reductions):
The proposed elimination of the 4N/A and 43 bus lines in Mt Washington is going to further devastate transit options from the mount. Where I live on Boggs Ave, my current options are the 43 (most convenient with a stop right across the street from me), the 4N/A (still convenient, there's a stop within a couple minutes walk), catching the light rail from South Hills Junction (less convenient, at least a 15 minute walk and I only will take it inbound to downtown due to the walk home being entirely uphill), or the Mon Incline (least convenient option due to incline fare not being transferrable to bus fare & a significant walk needed to transfer to another service). ALL of these options require a transfer through downtown to go anywhere else in the city, which often makes what could be a 15 minute drive into an hour long trip. Although the current system isn't ideal and does have room for improvement, I still regularly use the 43, 4N/A, and T to get to/from downtown. I feel safe taking the 43 at night to get home because it drops me off seconds from my front door. The elimination of the 4N/A and 43 would make me less likely to ever use public transit because of the lack of convenience and accessibility.
I am also concerned about PRT being unable to provide service for special events, such as game days. I regularly take the T for Steelers game and they are already overcrowded. Less frequent service will only exacerbate this problem and will created a frustrating environment for fans and those who are taking the T for other reasons, such as getting to work. This will especially be true when the city hosts the 2N/A26 NFL Draft, which is a time when we should be putting our best foot forward as a city for the hundreds of thousands of people who will be visiting.

I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
It is completely ridiculous to get rid of so many crucial lines. Especially to eliminate both his lines to Mount Washington. I mostly rely on them for convenience purposes but that was a huge part of my choosing where to reside as I refuse to deal with downtown traffic and outrageous parking fees. I know many others in the community who rel my on these lines out of absolute necessity. Getting rid of so many public transit options makes the city so much less livable and makes me want to reconsider my choices, which is saying a lot because I absolutely love Pittsburgh.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
So many people rely on public transit to get to their work, doctor's appointments, access healthier/more affordable food, and other essentials. I am not in a situation where the results of a service reduction would impact me critically, but I have many neighbors and friends who would be greatly impacted and I find that very concerning. I understand why not running the buses after 11pm seems logical, but for people who cannot drive or have limited mobility and rely on public transportation, going to work all day, and then having to run errands such as shopping for groceries in areas that are sometimes far from their home, due to food deserts or swamps, means that they might not be headed home until that time of night, or if they missed a bus or connection and the buses stopped running after 11pm they could be stranded and unable to afford other means of transport.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Again, I know so many people who already struggle to afford fare for public transit and their ability to get where they need to go would be negatively impacted by fare increases. I understand that funding is tight and increasing fare would help alleviate costs, but charging the most economically vulnerable cannot be the only solution here. There should be other ways to access funds without pushing out a demographic of people who desperately need these services and would no longer be able to afford them.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
I would have to switch to another mode of travel or rely on a family member or friend
Other comments (ACCESS service reductions):
As mentioned previously, I am deeply concerned about the impact these changes would have on vulnerable community members who rely on set times and routes to get to where they need to go, particularly to access essentials such as food, healthcare, employment, and welfare services. I have not used ACCESS, but I have known some people personally who have and I know it brings so much comfort to them to know that they can have reliable transportation. A service reduction of 62% for this population feels untenable.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
Again, I am concerned about the most vulnerable among us having to foot the bill to make up for funding strains. It is not sustainable and it would make ACCESS ironically inaccessible to many people.

Other comments (bus and rail service reductions):
We should be prioritizing public transit to strengthen our community by providing widespread access to public transportation/busses that is safe, efficient, and gets people where they need and want to go
Please don't cut routes that will cause people to lose access to doctors, dentists, jobs, houses of worship, family, etc

Oppose or support specific reductions.
OPPOSE: 71 EDGEWOOD TOWN CENTER (Elim.),
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
My grandchildren take public transportation to CAPA. If the 71 is eliminated, they would have to take the 61B, which would take longer and would drop them off in a less safe part of town. There are many other students who would also be affected. Since Pittsburgh Public School students have to take public transportation to and from school, almost all of the proposed changes would impact students trying to get where they need to be at the time they need to be there.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
At a time when people's ability to provide for their families is already feeling precarious these cuts will directly impact people's abilities to provide for themselves and their families (whether by getting o work or to key services like grocery stores or medical facilities).
A region cannot thrive without dependable transit.
So many communities have already been cut off from services and those service cuts devastate communities and their economic and physical mobility.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I understand that a fare increase may be necessary in order to continue services. While I feel a fare hike will disproportionately harm our city's most vulnerable populations, I don't feel I can fully oppose it.

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The current bus stops at Robinson used by commuters to get to the city and used by people in food deserts within city limits to access grocery stores will be entirely discontinued. I will no longer be able to commute to my downtown job from anywhere in the Robinson area because all bus lines will be entirely removed or used purely as an airport flyer, something that makes up only a fraction of the population riding the 28X.
Discontinuing lines more frequently used by low-income and homeless populations does not seem out of character for the former Port Authority or Pittsburgh Regional Transit, but doing it all at once will impact least protected people immensely.

I would have to switch to another mode of travel
None of these apply to me
Other comments (bus and rail service reductions):
When my husband and I relocated to PIttsburgh, finding a home with good access to public transit was a top priority. We've been lucky enough to do that -- as a result, we have only one car. Many areas of Pittsburgh and Allegheny County don't have as good access, so we should be expanding public transit - certainly not cutting it. I call on elected officials to safeguard and expand our public transit and protect against these proposed cuts.

Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Cutting transit will make the city's economic woes even worse: people who depend on the buses to get to work will find themselves either unable to keep working at all, or forced to try and find new employment (which will be limited by where they can get to - less opportunity, less mobility) and this will compound in lower taxes, lower funding, lower everything. Cutting service would make car ownership a necessity for many people, in a city that is terrible for car infrastructure and for people who either can't afford to own and maintain a car (or two!) / live in a place where owning a car is even feasible.
Cutting public services always causes more compounding problems down the line.

OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
At six bucks a day a parking pass for my job would probably be cheaper on its own (sans the cost of the car and gas etc) - I would be able to weather it, but just because I can weather it doesn't mean that other people can. Times are bad!

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
Other comments (bus and rail service reductions):
Your service is already unacceptable compared to what it used to be. It already takes much too long to get from the South Hills to Oakland and the buses are far too crowded. It is simply annoying to ride PRT to and from work now. If you cut service back any further, the only people who will continue to use PRT are those people who have no alternative. I won't be one of them. Public transit in Philadelphia and Camden, NJ is much better than here and it costs less to ride.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
They propose the elimination of the silver line and keeping the red and blue lines. The silver line goes all the way to Library, Pa. Has the staff taken into consideration of all the new housing just in Library alone (Summit Station)? In addition, there are new housing just outside of Finleyville, PA (Highland Village) and several more that would be well served with the continuation of the silver line. Since the red and blue lines both go to the Village, why not take out the blue line instead as the silver line goes the same route from Pittsburgh to Washington junction. Why have two lines that go to the same place when you can just keep the red and allow the silver to stay. The difference between the blue and silver is only the section past Washington junction to Library. The silver can service most of the blue and the red can continue to service from Washington junction to the village.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases

Other comments (bus and rail service reductions):
To Whom It May Concern:
I am writing to you with deep concern and a strong request for immediate government action regarding the proposed cuts to Pittsburgh Regional Transit (PRT) bus and rail services, as reported in the Pittsburgh Post-Gazette on March 24, 2N/A25. The plan to reduce about 35% of transit services, possibly starting in February 2N/A26, would have serious consequences for our region—consequences that require your careful attention and response.
These proposed cuts would severely harm people who depend on public transit, especially those living outside downtown Pittsburgh and in nearby areas. They would hit hardest for anyone traveling late at night—such as workers finishing after 11:N/AN/A p.m. or starting night shifts. This policy would make it difficult, if not impossible, for these individuals to get to and from their jobs, threatening their livelihoods and the stability of key industries.
I respectfully ask you to look into why there isn't enough government grant funding to support this essential service. PRT faces a budget gap expected to grow from $5N/A million to $1.8 billion over the next ten years, raising serious questions about how resources are being provided. Public transit isn't just a convenience—it's a critical part of our community's well-being, connecting people to jobs, healthcare, and daily needs. The lack of proper funding for something so important deserves your immediate investigation.
Beyond the impact on people, these cuts would also harm the environment. Fewer transit options will force more reliance on cars, increasing pollution and damaging our region's air quality. For those who can't afford a car, insurance, or maintenance costs, this decision creates an unfair burden, leaving them with few ways to get around.
Most troubling of all, these cuts would limit ACCESS paratransit services, which many people with disabilities rely on for basic needs like medical appointments and staying connected to their communities. Reducing this vital support is a loss we cannot accept.
Given these widespread effects, I urge you to step in and prevent this crisis. Please lead an effort to examine PRT's funding shortages and push for emergency resources to maintain and strengthen this critical service. The well-being of our residents, the strength of our economy, and the health of our environment depend on it. Your leadership could make a real difference, protecting thousands of Pittsburghers from hardship and isolation.
Thank you for your time and your dedication to serving the public.
Sincerely,
Jonathan M. Rainey

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 1 FREEPORT ROAD (Major Reduction), 13 BELLEVUE (Major Reduction), 21 CORAOPOLIS (Major Reduction), 28X AIRPORT FLYER (Major Reduction), 39 BROOKLINE (Elim.), 44 KNOXVILLE (Major Reduction), 51L CARRICK LIMITED (Elim.), 54 NORTH SIDE-OAKLAND-SOUTH SIDE (Major Reduction),
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The 39 is important for the community, I use the bus for getting child to school and from school (Carmalt and Brookline) It is also on the route of the afterschool program and childcare center (Seton). The service is necessary. Infact there should be more times that the bus is running vs less.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
You all provide essential transportation for individuals who don't have cars — including low-income families, seniors, students, and people with disabilities. It's a public good.
It connects people to jobs, education, healthcare, and other services. Without reliable transit, workforce participation and local economies suffer.
Public transit reduces traffic congestion and carbon emissions. It's a key strategy in fighting climate change and promoting sustainable cities.
It helps maintain livable, walkable, and accessible neighborhoods.
Why you Should Not Increase the Fare:
Fare hikes burden the very riders who rely on transit the most — often those with the fewest resources.
Higher fares can discourage use, leading to lower overall ridership and potentially less funding in the long run.
When fares rise and ridership falls, services get cut — making the system less effective and even less appealing.
Public transportation is a social equalizer. Fare increases can widen gaps in access and opportunity. There are better ways to fund transit — through federal, state, or local investment — rather than passing costs directly to riders.

None of these apply to me
Other comments (bus and rail service reductions):
My daughter is a Pittsburgh Public Schools student at CAPA in downtown Pittsburgh who takes a bus that already is a long route and only comes every 45 minutes or longer sometimes. It will affect her getting to and from school. It makes me angry since Pittsburgh Public School students in 6-12 schools have to take public transportation and school buses are not an option. So how are these kids supposed to get to and from school?!?!?

Other comments (bus and rail service reductions):
I'm concerned about drastic cuts to all our public transportation and the many people that will be hurt. Doing this early next year is particularly inopportune two months before the NFL draft. Shutting public transportation down at 11:N/AN/A pm, stranding visitors and workers while events and restaurants are trying to be open, will taint visitors and observers' view of Pittsburgh and Pennsylvania.
The Silver Line is what my family, friends and I regularly use for shopping, work, sports and recreation. If possible, I would like rail service on the Silver Line to continue but I understand ridership has dropped a lot since Covid.
Recognizing the costs of repairing rail tracks, beds and bridges on the Silver Line are very expensive due to their poor condition, might it be possible to at least continue service to Lytle, which recently had a lot of work done to it including the revamped parking area?
If the Silver Line is discontinued, I'd like us to have bus service from Library to Washington Junction station through my town, Bethel Park.
Turning the Silver Line rail bed into a rail-trail would also be very helpful allowing us to walk or bike to local services. Perhaps this could be done under the auspices of the Montour Trail Council and we can seek funding from DCNR and other sources.

No difficulties

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Transit reductions and service line cuts would create an undue burden on low-income communities reducing their ability to access jobs, groceries, health care, and more. I may not use the bus lines as often now as I have in the past, but seeing the main route that I would use if I was unable to use my personal vehicle for travel to work being cut completely is shocking. I cannot imagine how others who completely rely on public transportation will find alternatives. Several of my staff are seeing drastic cuts to their regular transit routes with no alternatives; how will they get to work? In addition to the concerns about impacting those who rely on public transit, the increase in use of personal vehicles that this will create is disheartening. As a community, we are working to reduce air pollution and overall carbon emissions; with 28% of US emissions coming from transportation sector, we should be working to continue reducing that footprint. These proposed cuts and reductions will do the opposite of that, while leaving many people in low-income and environmental justice communities in the dust, yet again.

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
I do not use PRT services
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
N/A
How do you identify yourself? Select all that apply.
White
What is your age?
18-24
How would you describe your gender identity? Select all that apply.
Woman
Which of the following best describes your 2024 household income?
$50,000 to $74,999
Including yourself, how many people live in your household? 3-4
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The bus system is so extremely necessary. This city isn't easy to get around, and cuts will impact the whole community. Do not make Pittsburgh a "dirty city" again.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
some of my friends may not be able to get home from school as easily due to these changes, or even be able to at all. though I myself wouldn't have it that bad, there are probably some who will have to completely change their life because of this. this lack of money is very unfortunate, and I would definitely donate to continue having certain PRT services.

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I won't be able to depend on a guaranteed ride
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel or rely on a family member or friend
Other comments (ACCESS service reductions):
People rely on access for many reasons and it isn't fair that the people that need it most are the lower income people and things that they need are the first and only thing to be effected.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for ACCESS or other essential expenses
I would take less ACCESS trips
I would have to switch to another mode of travel or rely on a family member or friend
Other comments (ACCESS fare increases):
it is hard enough for the working class to sometimes be able to afford

Other comments (bus and rail fare increases):
Currently the transit use requires exact change, and often times those who are paying cash are paying an extra 25 cents as they only have $1 bills. A slight increase to help keep service as frequent and far reaching as possible is far better than not having as regular available trips.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
We will lose one of only 2 buses that come to my neighborhood, we already do not have enough service and we badly need a transit route that takes you from Millvale across the 4N/Ath street bridge all the way to the Waterfront or at least to Oakland. The number 2 bus, which we would lose, already comes way too infrequently and it's the only bus that takes you to any of the Shaler area schools, even though that is the school district zone for Millvale, and many in Millvale do not drive. My neighbor needs the 2 to get to work, now he won't have a way to get to work. One man on the 2 the other day very poignantly said they might as well put us in prison because we can't leave our house or our immediate areas. Another neighbor who is elderly tells me she used to ride the 1 and 2 buses but she can't walk all the way to their current locations, so she has to rely on family to get her where she needs to be. What about those who don't have family around? So many stopped riding the bus due to the increased cuts since the 8N/As and onwards, if there is less ridership it's because there is less service and because more dangerous walking conditions due to car-centric infrastructure has made it more difficult for people to get to transit.
We need to restore service frequency and route-levels to pre-pandemic levels, Pittsburgh is the only place that has continued losing transit riders after the pandemic and the population and economy of Pittsburgh cannot grow in a way that actually brings prosperity without transit. We cannot restore Pittsburgh to it's former glory relying on the economic burden and misery of car-infrastructure, car infrastructure does not encourage the local economy and very limiting to how many people we can move around the city without destroying even more of what has been destroyed and disconnecting neighborhoods even more than they have already been disconnected in order to put ugly, toxic and dangerous highways.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
The bus is already too expensive for the level of service and wait-times, it is difficult for a lot of low income people that I work with to get to use the lower fares, even if a way to load a card in person exists (and from my experience with connect card, it also has so many issues). It's basically impossible for people who are illiterate and/or don't speak English which represents a lot of people that rely on transit in Pittsburgh to access the Allegheny Go program. Many people I know also can only use cash so they are already having to pay $3, they have kids and it adds up to a lot of money. This is one of the only places I've lived that charges grade-school students a full fare, especially for such sub-par service

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The bus lines are the life blood of Pittsburgh transit. The lack of options for commuter traffic significantly limits route options and schedule flexibility. Diminishing these bus routes will only continue to reduce revenue for PRT. Limited transit access will kill tourism and future events in the City. Privatizing transit will only increase the wealth gap, traffic, and lack of parking. With no affordable public transit, Pittsburgh will be passed over time and time again for another accessible city.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I understand that fares need to increase to sustain operations. However, terminating lines will only further reduce participating in the PRT program.

I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Proposed service changes will greatly impact the quality of life of many Pittsburghers. It will reduce, and in most cases remove access to those who need it the most. For those of us who have access to another mode of transportation, it will increase traffic, affect infrastructure, and cause significant financial burdens. Already, there are far too many cars on the road and parking in downtown garages are extremely limited. It will increase air pollution in a city that is already failing in clear air quality. What makes my current neighborhood desirable to live in is a walkable main street and access to public transportation. Removing the busline will affect all of us who are dependent on that one line.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Pittsburgh already has some of the highest bus fares in the nation. Increasing this cost while reducing access is a disgrace to our community.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The amount of money that has already been spent on rails, stations, trains, signals, etc. would be completely wasted by the elimination of the entire Silver Line. I was able to commute to downtown for years without the expense of owning a car or driving. I purchased my home within walking distance of the Silver Line so I could ride it to work. Eliminating the Silver Line would force me to drive to work everyday and spend a fortune on parking and gas, essentially making my job no longer affordable to keep. In addition, the elimination of the Silver Line has the potential of lowering the property value on hundred if not thousands of homes near the Silver Line. The ridership of the T was reduced by COVID-19, then just as we emerged out of that time period, PRT started major infrastructure upgrades which significantly impacted my ability to get to my job. However, I planned to go back to riding the T full time when the Silver Line resumes full service to downtown. Permanently cutting service would take a major transportation choice away and force me into a much more expensive commute which would reduce my ability to make a living wage. Public transportation needs to be funded and supported by federal and state government. Do not cut funding to PRT! Do not eliminate entire service routes, especially to areas that rely on it to survive!
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I would support a $.25 fare increase rather than eliminate entire routes like the Silver Line. I would rather not pay $.50 more a day to commute to my job every day but if it is that or eliminate an entire route, I would support a small increase.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
I firmly believe Pittsburgh needs a more robust transit system. I think increasing the service areas and timeframes would increase the number of fares and make it a more viable regluar transportation option for Yinzers. Making air quality, traffic, road upkeep, and safety easier to support.

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I'm strongly opposed to the service reductions for all of the frequently stated reasons -- it's the only form of transportation for many Pittsburghers, it will lead to greater traffic congestion and air pollutants, mobility and access to resources is a major component of creating a more equitable city. In addition to affecting the many current residents who utilize public transit, these reductions will also detract from the city's appeal as an affordable city where a car-free/car-lite lifestyle is possible. This will likely lead to less people moving to the Pittsburgh region and less tax dollars coming to the city.

OPPOSE: G2 WEST BUSWAY (Major Reduction),
SUPPORT: 24 WEST PARK (Major Reduction), 27 FAIRYWOOD (Major Reduction),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Use the busways. Keep service using the busways to and from downtown as frequent as possible (INCLUDING THE WEST SIDE OF TOWN), and then adjust cuts and service to routes that travel through other neighborhoods. Most riders drive to the busways, park their cars, and ride from there because they are more local. Change the routes their first/final stop is a busway, and then the buses can take them to the suburbs.

Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 36 BANKSVILLE (Elim.), 38 GREEN TREE (Elim.), 41 BOWER HILL (Elim.), 75 ELLSWORTH (Major Reduction), 82 LINCOLN (Major Reduction), RD RED LINE LIGHT RAIL (Major Reduction),
SUPPORT: 7 SPRING GARDEN (Elim.), 15 CHARLES (Major Reduction), 18 MANCHESTER (Elim.), 19L EMSWORTH LIMITED (Elim.), 28X AIRPORT FLYER (Major Reduction), 51L CARRICK LIMITED (Elim.), 52L HOMEVILLE LIMITED (Elim.), 53L HOMESTEAD PARK LIMITED (Elim.), 65 SQUIRREL HILL (Elim.), 71 EDGEWOOD TOWN CENTER (Elim.), G3 MOON FLYER (Elim.), G31 BRIDGEVILLE FLYER (Elim.), O1 ROSS FLYER (Elim.), O5 THOMPSON RUN FLYER (Elim.), O12 MCKNIGHT FLYER (Elim.), P7 MCKEESPORT FLYER (Elim.), P10 ALLEGHENY VALLEY FLYER (Elim.), P12 HOLIDAY PARK FLYER (Elim.), P13 MOUNT ROYAL FLYER (Elim.), P16 PENN HILLS FLYER (Elim.), P17 LINCOLN PARK FLYER (Elim.), P67 MONROEVILLE FLYER (Elim.), P69 TRAFFORD FLYER (Elim.), P71 SWISSVALE FLYER (Elim.), P76 LINCOLN HWY FLYER (Elim.), Y1 LARGE FLYER (Elim.), Y45 BALDWIN MANOR FLYER (Elim.), Y47 CURRY FLYER (Elim.), Y49 PROSPECT FLYER (Elim.), SV SILVER LINE LIGHT RAIL (Elim.),
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Trimming dead weight, optimizing service/routes is good. Rather increase fares, reign in staff expenses/eliminate union before pruning higher-use routes.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
Even-dollar fares are more than reasonable. Increase fares even more. Reign in staff expenses/eliminate union.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Reductions to the 54, 81 and 83 will significantly impact my journey from the South Side into Oakland where I work and where my daughter's daycare is located. This will make it more difficult for us to get to both places on-time/in a timely manner and add unnesssary costs to our family budget. Driving and parking in Oakland is difficult (as it should be, since it is a dense urban core), but if we are forced to do this, it will add additional costs to our commute. We will also be contributing to the very congestion, public transit helps to eliminate.
For this reason, we oppose the cuts to service and hope Harrisburg can find a solution to support continued service of PRT.

The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
You can't have it both ways. If you're going to increase the fares, you need to increase the benefits of service, not take them away. What would we be paying for, then? Expand the T and make the buses more reliable, hold drivers accountable. Why would I want to spend an extra $1,278 a year for less service? Make it make sense.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
with changes to service it would make getting to and from jobs and places to that are important harder than it needs to be. not only is public transit important for me someone who faces a lot of anxiety and can't drive but those who may not be able to drive due to disabilities or health issues and other things that could make it impossible to drive. with cost of living being as bad as it is ubers and lfyts and paid services may be too expensive to be able to use.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
increased fares may not impact me too much but it will impact those who use public transportation as their main mode of transportation due to not being able to afford a car or not being able to fix their car. if the prices were to increase it could make it harder for people of a low income to be able to commute because it does add up quickly . if yhe normal fare is 3 dollars a round trip would be 6 dollars if you have to take a round trip 6 days a week that is 36 dollars week and with a month it's an extra 144 dollars used to commute to work or school or whatever yhe cost may be and mlt everyone has that.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
ADA accommodations are critical to those who have disabilities. if access were to be reduced that would mean that people with disabilities would not be able to travel safely if at all due to this which is not only abelist but unsafe and not okay. they are people just like us.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
I do not have any disabilities that fall under this however I stand with disabled people and want them to have access to safe travel and accommodations they may need in order to be safe and able to do whatever they want.
Other comments (ACCESS fare increases):
as I said on the last slide about fare increases it adds up quickly depending on how often you go out and some people cannot afford it.

I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The bus and light rail system in Pittsburgh is its lifeblood. It carries the hardworking people of Pittsburgh to their jobs, medical appointments, and everything they need to get done. I know for me it was essential for getting me to my 2-3 time a week medical appointments when I had a pregnancy with complications. But beyond that it makes living in the city beautiful. Fewer cars on the road. masses of black and yellow bedecked fans delivered to their games. A cultural district late night bus ride home after enjoying dinner, a play and a cocktail. All these are harder without that lifeblood. Please don't make the cuts and fill our roads with even more cars and make parking even more of a horrible hot button issue. Having more bus service has many positive externalities and cutting it would ruin many people's lives.

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I won't be able to depend on a guaranteed ride
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel or rely on a family member or friend
Costs may increase. Causing me not to be able to afford ACCESS..
Other comments (ACCESS service reductions):
In 2011, I was highly involved in saving funding for ACCESS to keep it at the level we are familiar with now for Allegheny County. It is shameful we are back at square one again.
The access mode of transportation is the only thing I know to get around. If you cut it In any way you severely hinder my independence and my livelihood. Not to mention the independece and livelihoods
of millions of other people with disabilities.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for ACCESS or other essential expenses
I would take less ACCESS trips

I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Not only would this dramatically impact so many people who rely on public transportation to get to work, hospital appointments, family, events, etc., it would also affect local businesses and those who drive. The city is not built for the amount of cars it would suddenly need to manage if everyone had to drive. Traffic and parking would be impossible, air pollution would go even higher, people would stop coming into the city and businesses would lose customers. Public transportation should be a prized amenity of any city. It promotes local businesses and restaurants, it provides invaluable access to people of varying incomes and disabilities, it helps infrastructure by reducing the amount of vehicles on the road. We will not survive as a city without it.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
These are some of the highest fares in the country, that's unacceptable. Services that are pulling in much higher prices, like ride share, and are paid for by people typically with more disposable income should be taxed. Or some of the city's annual taxes should go to this. Putting all of the cost on the people who use the service (and are typically the lowest income) is not the right way to go about it. Public transportation affects ALL residents of the city, even if people don't directly use it daily.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Quality public transit makes a city not just more livable, but more attractive to all people - entrepreneurs, employees, and employers. The ability to get to your job, sure - but also the ability to go to a show, meet someone for coffee, or grab a drink with a friend. It's hard to quantify, but the sort of people we want moving into Pittsburgh want public transit, and the trickle down effects of that are tangible not just socially, but economically.

To Whom it May Concern,
Since 2N/A13, Alliance for Refugee Youth Support and Education (ARYSE) has worked alongside refugee and immigrant youth to help them navigate and shape their new lives in Allegheny County. A central part of our programming—from summer initiatives to year-round leadership development—relies on the availability and accessibility of public transit provided by Pittsburgh Regional Transit (PRT).
Public transportation has been a foundational element of our program design since our inception. PRT allows youth from across the region to access our programs—whether they live in the North Hills, South Hills, or farther out in places like Baldwin or Carnegie. With participants regularly moving due to unstable housing, the reliability of public transit ensures that displacement or economic hardship does not also result in disconnection from critical community support.
Moreover, by depending on PRT, ARYSE is able to offer our programs free of charge. We do not own vehicles or employ drivers—instead, we invest in youth directly by covering transit fares. This model allows us to remain financially accessible while teaching valuable life skills. Our students not only learn to navigate the city using PRT to attend our programs, but they also gain the confidence to travel independently to work, school, libraries, and community events—tools that build long-term mobility and independence in a new country.
For youth who are new to the region and often experience social isolation, PRT is more than a way to get from point A to B—it's a lifeline. It opens doors to connection, opportunity, and belonging. Many of our participants come from families who cannot yet drive in the United States or afford vehicles. PRT ensures they can access resources that support their social, emotional, and academic growth.
The consistent availability of transit helps our students stay engaged in programs that build leadership, foster healing, and help them find their voice in a new community. It also ensures their families can access jobs, services, and social networks that are essential to economic stability and community integration.
A 35% reduction in service would have a devastating ripple effect. Fewer routes and longer wait times mean that many of our students—already navigating complex lives—would face additional barriers to participation. Inconsistent or inaccessible transit could lead to a sharp decline in attendance and engagement, forcing youth to miss out on critical support during a formative time in their lives.
More broadly, these cuts would isolate entire families from the economic and social resources they need to thrive. For many of the communities we serve, reduced service isn't just an inconvenience—it's an obstacle to education, employment, healthcare, and community connection.
At ARYSE, we believe all young people deserve the opportunity to thrive, regardless of where they live or how they get around. Public transit is an essential tool in achieving that vision. We urge you to protect and invest in a system that makes opportunity possible for our region's most vulnerable and promising youth.
- Jenna Baron, Executive Director, Alliance for Refugee Youth Support and Education (ARYSE)

I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I'm writing to express how devastated I am about the plan to eliminate the Brookline 39 bus. I think this is unequivocally bad for our community. My husband and I take the bus every week, and access to the bus line was part of our decision to move to Brookline. We have one car, and our son has special needs (epilepsy). Losing the bus would cause a financial hardship for our family because we would need to buy a second car, and we would have to pay for parking downtown (I work at Point Park University) and in Oakland (my husband is an employee at University of Pittsburgh).
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
Our fares are already very expensive
Other comments (bus and rail fare increases):
We have one of the highest public transit costs for riders in the country. Pittsburghers deserve better and should be able to get to work and school more affordably.

I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
These cuts would prevent most of my dustomers from getting to my business.
Other comments (bus and rail service reductions):
the universities and all major hospitals are all within 3 miles of me. Most university students and employees depend on PGH public transit as a culture. If service is delayed b/t busses the bus stops will have so many waiting that when the nest bus comes, not all will be able to get on. This is already the case with many busses in our ares for the current bus schedule. People will totaly give up in the bus and the universities and hospitals, too will be greatly impactee by this situation. Also, all small business will be impacted, as well as all night+time establishments. like restaurants and all entertainment venues.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
With transit that runs so infrequently, It wouldn't pay to pay more for the treat inconvenience.
Other comments (bus and rail fare increases):
I might as well move out of PGH. I'm a non driver.

Other comments (bus and rail service reductions):
I know for a fact that these changes would directly effect many high school students and workers who commute to downtown daily. I used to do this commute and the only way that it was even bearable in the first place was the speed and reliability of the coverage back then. Reductions and elimination of certain lines would absolutely destroy access for these people. They are my community and I don't want to see this happen to them.

Other comments (bus and rail service reductions):
Though I currently live in Swissvale, my husband and I are planning to buy a house in the North Hills to be closer to family. I work for the University of Pittsburgh and am deeply saddened by the proposed cuts that would affect commuting from the North Hills to Oakland. The remaining routes would require over an hour commute one-way. Finding daily parking in Oakland is exceptionally difficult and expensive and I have commuted by PRT bus for over seven years. Maintaining a public mode of transit rather than driving is a key part of my life that I would like to maintain - I was very excited by the PRT 2.N/A plan that would have provided direct routes from the North Hills to Oakland. The proposed cuts affect not only those possible future routes, but the current routes of North Hills to Downtown to Oakland. I implore you to reconsider these changes.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Being that I do not drive, I rely heavily on the PRT to get me to my employer and shop for both groceries and necessities. It also provides for me a way to get into around town to experience cultural events. The PRT makes it possible for me to visit loved ones as well. Uber's are expensive and so is intstacart if I would need to rely on those services to live and go broke. Even with the proposed fair chair is more affordable than those money sucking services

I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
My bus, the 39 Brookline is full. Standing riders in at rush hour. These are mostly workers who provide services as employees that we need and want downtown. I've heard many of them talking during this period of uncertainty about the inability and unaffordability of getting downtown by some other mode of transportation.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I would rather a fare increase than a service disruption. But we already have one of the most expensive transit fares in the nation, so I would much rather an alternative solution be found. Feel free to forward this to the State and tell the Senate you need more money. But raise fares if they don't listen, we need the services, don't cut.

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Such a significant amount of work has gone into increasing service efficiency and coverage, culminating in the Bus Line Redesign - I was so excited for the changes! The new coverage map was going to make it a lot easier to get to daycare, work, grocery stores and downtown. Reducing frequency and routes when cars, gas, electric bikes and regular bikes are more and more expensive is really counterintuitive.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I work for the Pittsburgh Food Policy Council, and access to reliable public transportation is consistently named as a priority/barrier for healthy food access. Not every neighborhood has a grocery store, and not everyone has a car, which means sometimes buses are the only method of transport ensuring people can feed themselves and their families.

I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Eliminating the Silver Line would reduce our ability to age in place in our home. We aren't in a very walkable neighborhood and access to the T is very important, we use it to access town for entertainment, events and biking. We would have to move rather than be stuck in the suburbs. Losing the T would also impact the value of our home negatively. I feel, too, that employers in our area would struggle to find employees if the T is lost. It seems a very backwards move in these days when people want more access with less driving.
Also—reducing service before a major event like the NFL Draft seems crazy.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The significant proposed reductions in service would take Pittsburgh from one of America's most livable cities to one of the most undesirable. PRT's services are already severely lacking. Cutting them any further would impact the entire metro area. Most directly, it will cause lower-income individuals who cannot afford a car, as well as those who do not drive for reasons related to disability, age, or personal choice, not to have a way to get to work or medical appointments. As the child of a mother who supported five children by riding public transportation to work, and who now owns a business in the City representing clients who include lower-wage workers, I have seen firsthand how important public transportation is. Moreover, depriving workers of transportation would result a lack of workers in the City, which would also impact businesses and the public at large who patronize those businesses. For those who can afford to switch to driving, it will cause more traffic, more pollution, and a shortage of parking. Additionally, it would make Pittsburgh a less attractive place for younger professionals to live and for tourists to visit. Cutting public transportation would be one of the worst things the County and the Commonwealth can do if they expect Pittsburgh to be a successful city in the 21st Century.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I support a modest fare increase if it means that no significant cuts are made. A fare increase is generally a tax on the poor, and fares should be largely covered by the government budget.

Service change impacts (bus and rail):
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
If the Route 14 were eliminated, that would leave all non-drivers with no public transit from Beaver County to Allegheny County on weekends. This would mean that anyone who does not drive will not be able to access necessary Health Care at Esmark Convenient Care in Sewickley on weekends. We also would not be able to get to Sewickley Hospital for care or to visit loved ones. This would be a terrible hardship for seniors, people with disabilities and all those who do not drive. It will also be a great disadvantage for the many workers in Beaver County who work in Pittsburgh. Those who find it necessary to take the Route 14 to Pittsburgh to connect with the 28X to the Airport would find it impossible on weekends. And cutting off service at 11 p.m. is unbelievable!!! Work does not stop at 11 p.m. and many of those who DO find it necessary to work after 11 p.m. are the poor. But if they cannot get to work, EVERYONE will be affected, not only the poor.... Yes, raise the fares if you have to, but do NOT make these Draconian cuts. They are both shortsighted and cruel.

I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Public transportation is an important service for a healthy community and for development of individuals who are just starting their careers. I do not think that you can entirely measure its value based on ridership volume. If it helps just a few individuals at a time in need it has done way more. In addition Pittsburgh and particularly the South Hills has traffic congestion! Taking away these services will only cause more traffic jams. I urge you to keep as many services as possible. I would even go as far to say look for how we can make more attractive so ridership grows to help support the cost.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I live in Bloomfield and take the bus to work in Oakland (sometimes; sometimes I bike). I also take the bus to cultural activities such as events at the New Hazlett, in the Cultural District, and at PNC Park. I have two young children and I take the bus with them which they love doing, and saves me time and money in addition to hassles with parking. Cuts would deprive me of this helpful public service, in addition to a feeling of camaraderie and connection with other bus riders. I value buses as public spaces where all kinds of people gather, especially in our racially and economically segregated city.
I work as a therapist a clinic for people with addictions, and I am much more gravely concerned about the impact of cuts on my clients' wellbeing. Many of my clients travel to our clinic in Oakland from areas such as McKees Rocks, Mount Oliver, even as far as McKeesport, and rely on buses for transportation. They also take transit to jobs, to activities for their children, and to support groups such as AA and NA. For people who are struggling economically with a variety of other challenges such as mental health, addictions, and unstable housing, transit is an absolute necessity. Currently, transit is unreliable and time-consuming enough that many of my clients spend money and energy they don't have in order to secure a personal vehicle, which could be directed toward other things if they knew they could count on the bus.
So many, many people in the Pittsburgh area are struggling to get by. Cutting transit could push those individuals and families into a much worse spot, which seems cruel given how hard many people have it.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Fares in Pittsburgh are already surprisingly high. For me to commute to and from work every day, it would be about $100 a month, which is a significant expense. There are also not good options for lower-income people. In my opinion, people with EBT benefits should qualify for reduced fares, just like seniors do. Raising prices is the wrong direction for transit to go.

I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel or rely on a family member or friend
Other comments (ACCESS service reductions):
My name is Zachary Grabowski, I am writing concerning my public transportation. I live in Lawrenceville. I work at Fox's Pizza Den in Russellton, and my main source of transportation is Access. I use it to get from Lawrenceville to Russellton and then from Russellton back to Lawrenceville. I am an individual who is blind, has hearing loss, Autism, and Epilepsy. Access is my only source of public transportation. I am fearful of having my transportation cut. It took me a long time to get hired at a job and I am scared of losing my job because I won't have a way to get there. I have worked at Fox's Pizza for over two years and really love my job! Access provides the door-to-door service I so disparately need.
I also rely on Access to visit my dad in Shaler. He does not have a car and is on disability.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
I would have to make decisions about whether to pay for ACCESS or other essential expenses

OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
My son is blind, hearing impaired, autistic and has epilepsy. He has been working at a job he loves for the past two years and relies on Access to transport him. If the service reductions go into effect, he will likely lose his job. It's taken him a very long time to secure employment. Taking Access gives him a sense of independence. Please consider what would be lost not just for my son but for so many who rely on this mode of transportation to access work, groceries, doctors, childcare, social and religious activities, etc.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
Alot of the clients who rely on Access are on fixed incomes. The increase would really impact their wallets. Tough decisions might include not being able to attend social or religious activities. This can lead to isolation.

Other comments (bus and rail service reductions):
My fiance and I specifically moved to Pittsburgh this past year because of how great PRT is. Getting around the city can be difficult even with a car, but PRT makes it much easier. With Pittsburgh in a great spot to grow rapidly over the next decade, I think that drastically cutting PRT would be doing a disservice to the current and future residents of the region.

I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Our society needs to prioritize what is good for People instead of businesses, profit, and a select few individuals. There are plenty of things our taxes and budgets are allotted for that could be cut instead of essential services like public transportation. It is preposterous to cut further a service that is already in need of improvement, and it is a downright shame that we continue to make this city even harder to live in.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Making the service worse and more expensive is exactly what _not_ to do. If we prioritized what people actually need and want, we wouldn't have to make these choices. Instead, our society is giving all the money to the police departments so they can punish people for being poor and needing things. In Pittsburgh we can make the choice to be different: we can prioritize the needs of everyday folks, and keep our public transit system intact.

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to access medical care locations
I would have to switch to another mode of travel
I would have to take ACCESS instead of fixed route service
Other comments (bus and rail service reductions):
I have missed a money making opportunity, an important medical appointment I made 6 months ago and cannot reschedule until July, and almost missed giving blood at Pitt all in the past 6 days! The trolley stopped service or was very late and I had to take a different route and missed bus connections, and this is before additional cuts. You will lose riders because we cannot depend on your services and it will further jeopardize good public transportation in a city that desperately needs it. Also, my Son just moved from Connecticut and built a home in South Park on the trolley line so he could commute to work and to see family and go to special events, please do not discontinue the Silver Line. We have suffered through many interruptions and bore the costs but please do not cut anymore and instead try to improve and add services and we will gladly pay more. Also, I travel many times on the Red Line from Beechview to town and I like that you have a stop now in Allentown, I see more and more riders get on and off there. I hope when the Washington tunnel is finished you will still run some trolleys through there to afford people there the opportunity to take public transportation to work and school.
Thank you for listening and for your kind and careful consideration.

Other comments (bus and rail fare increases):
I would be glad to pay more if your service is reliable and I can get to appointments and functions on time. Choose which path prt will take, offer an exemplary service and people will be proud of it and use it gladly and pay more if necessary or nickel and dime us until we finally have to find another way and that would be a travesty and a terrible waste of a great and wonderful resource in and to and through our beautiful Neighborhoods. .

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
I would have difficulty getting to doctor appointments or social activities if bus and trolley service was reduced or certain routes were eliminated. I am retired and can't afford a car to go anywhere in Allegheny County. Trying to get to places within the county is hard. Sometimes cab service or ride sharing services like UBER or LYFT are hard to reach because they don't have available drivers or some drivers never show up at all.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Keep the fares the same. It wasn't easy to reduce them to just one price for one fare zone. There were three fare zones years ago and ridership constantly decreased over the years. Then it went to two zones until it finally went down to one zone.

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I am new to Pittsburgh and the availability of public transit is one of the things that I like most about the city. With the proposed reductions, I would have to consider driving to work, which would be more expensive, put wear on my car, and have a harmful effect on the environment. In a time when the federal government is becoming more visibly corrupt and its actions seem designed to actively harm citizens, it is important for state and local governments to step up and step in for vulnerable populations, and that includes those who rely on public transit. Alternatives are not available for everyone, and the proposed cuts will only cause inconvenience, stress, and inflexibility for people who don't need any more of those things in their lives.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
The Trolley access was the reason we purchased a home in Bethel Park. I heavily rely on the trolley service to get to my downtown office and also attend sporting events and concerts downtown and on the north shore. Please do not reduce service as this will directly impact my growth and development opportunities at my place of employment (big 4 accounting firm).
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
While a small increase would not have a direct impact on my finances, there are other loved ones and neighbors and colleagues in the community who may have to find alternative employment or ways to get from the south hills to the city.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
These changes would cut off Brookline, a quintessential streetcar suburb made up of working families, completely from public transit. Refusing to provide service to one of the most populous neighborhoods in the city is unacceptable! Port Authority... sorry, "PRT," should have been on top of this supposed budget crisis years ago instead of proposing draconian cuts at the last minute and holding a gun to the heads of citizens and home owners in multiple transit-oriented neighborhoods. This is an opportunity to find permanent, local funding solutions and reorganize the bus system to a high frequency, higher transfer system instead of the outdated current system that seems hellbent on redundant one seat trips to Downtown. PRT and local government know they can't depend on the state for consistent funding and need to show creativity in securing funding and providing the frequent, efficient service our city deserves.

Oppose or support specific reductions.
OPPOSE: 28X AIRPORT FLYER (Major Reduction), 52L HOMEVILLE LIMITED (Elim.), 53L HOMESTEAD PARK LIMITED (Elim.), 56 LINCOLN PLACE (Major Reduction), 58 GREENFIELD (Elim.), 64 LAWRENCEVILLE-WATERFRONT (Major Reduction), 65 SQUIRREL HILL (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
This proposed plan is devastating. Having no service at all after 11PM would have a major negative impact on the region. Many people work at those times in service and healthcare and this provides them with no options. Additionally, many people rely on that service for their social lives and cutting it will push more people into cars or have a negative impact on local businesses. There is much to oppose in this plan--so many communities are being completely cut off from transit--but I would like to focus on my community, Greenfield. Greenfield is almost completely cut off from transit access to downtown with this proposed reduction. Second Avenue functions as a de facto busway, but this plan eliminates or greatly reduces a number of routes that take advantage of that. For those of us in Western Greenfield, the only real way to downtown is to walk down the hill to Second Ave, which means we also have to walk back. That hill is brutal and this is basically the equivalent of eliminating service for this part of the city for many people. I urge PRT to reconsider its cuts to the Greenfield area. Even keeping just one of the 52L or 53L would make a big difference, because it would restore direct outbound access and help people in the Mon Valley. Greenfield made ourselves heard in the first round of the bus line redesign project, and it seemed like PRT was starting to understand our transit needs. This plan is a slap in the face to that advocacy and to our neighborhood. I understand that the real challenge is that the state is not providing enough funding, but these cuts would create a transit desert in an area where people are used to being able to take transit. So many people rely on it for their commutes and daily lives and live here in reliance on that transit access. I urge you to reconsider these cuts, especially the cuts to the Greenfield area.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
These fares would be some of the highest in the country for significantly worse service. It would frankly make more sense to have a reduced fare in the free fare zone for the T instead of negatively impacting everyone else in the region to this degree.

I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
FIND the money to fund transit. Raising prices hurts the most vulnerable the most, and reducing access is terrible for various reasons. Those without other modes of travel who lose access will be left stuck (reducing fare income) and businesses who rely on customers who get there by bus will lose money (reducing tax revenue and hurting business). Even those who can switch to driving will cost the city money (wear and tear on the road, plus the loss of fares) and high-traffic areas can't sustain even higher car traffic, both for travel time and parking availability. Properly funding public transit means happier, more productive citizens, less road maintenance, and less overall vehicle traffic, which itself leads to lower noise pollution, fewer accidents, quicker travel times, and higher air quality. Public transit should be a high priority in the budget, even if funding has to come from elsewhere. Cutting service and raising fares hurts everyone.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Fare increases will not raise more money, but will instead cause fewer people to ride the bus, resulting in either the same revenue or less while hurting those who can't afford it but have no other options for travel. Find the money elsewhere.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
I use buses to get everywhere in the area. When I can't take a bus, I have to use a ridesharing app like Lyft or Uber, which can be really expensive. While my route to work will still exist, it's getting fewer buses running which will make scheduling harder, and will make missing a bus that much worse. I use the bus to visit friends, to go to events, shopping, and everything else I do! When service gets reduced, my accessibility to everything gets reduced.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I could and would still pay PRT fares, but that's because I have to. It's still cheaper than getting a car or using a rideshare app. However, this fare hike would be coming at a time where everything is increasing in price without wages rising. Slowly, people at my income level become less financially stable because of this. People who rely on PRT and have even less money than me will definitely be impacted, and will lose accesibility to the world around them. In addition, the fares are already high enough to discourage occasional riders. Many people prefer driving despite traffic and parking troubles because 2.75 is too expensive for a single bus ride.

OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
I work at a senior center where many of our clients use ACCESS as their main form or transportation. Some of them use the Over 65 program, and some of them may fall under the ADA or OPT programs. Older adults are at high risk of falling into poverty, and especially the user base of ACCESS. The people I know who use ACCESS don't have much income, and have to decide between necessities at times. They use their ACCESS fares to come to our senior center for free programs because that's what they can afford. The more money that slowly gets squeezed out of them, the less of a life they will be able to afford to have.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I am currently a special education teacher at CITY Connections West 1 on Chartiers Avenue across from Langley K-8. Our students and program greatly depend on the 26 and G2 to get around our community and Pittsburgh area. We currently take the 26 to grocery shop at the Crafton Shopping Center and to go downtown. Our special education program is community based and dependent on utilizing public transportation to gain access to community based instruction - making purchases at stores, practicing using public transportation, traveling to the library, traveling to coffee shops, etc. Students also utilize the 26 and G2 to travel to and from school and work. This would be a great hardship for our students. We also have students who have mobility issues and depend on the 26 as the stops are more convenient and closer to our location versus utilizing the G2.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I take the Silver Line from Library to Washington Junction, and then transfer lines in order to get to work in downtown Pittsburgh. While I am lucky enough to have other transportation options available for me (car), there are many people who do not. Cutting bus and rail service would eliminate a logical and convenient service that thousands of people rely on to make a living. Access to reliable public transportation provides so many benefits to my community and society as a whole, and I do not understand why there are not efforts being made to INCREASE public transit access and reach, but instead efforts are being made to decrease it.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
I would have to take ACCESS instead of fixed route service
Other comments (bus and rail service reductions):
These changes will make living in this city completely unfeasible for a major subset of the population—including STUDENTS! This would be catastrophic on so many levels. Paratransit is deeply needed.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Please do not reduce transit. Access to transit is a vital social good that benefits hundreds of thousands of people in Pennsylvania. The proposed reductions would drastically undercut the substantial progress PRT (and formerly Port Authority) have made over the last decade and would therefore render significant prior financial investments null. So, past money spent on the public transit infrastructure in Pittsburgh would be wasted, which is an affront to the citizens and government of the United States of America.

Other comments (bus and rail service reductions):
I regularly use the bus to commute to work, as well as other locations such as the grocery store and the gym. I believe good public transit infrastructure is important to the health of a metropolitan area. Robust bus and rail service empowers Pittsburghers to be mobile and engage productively in our community, as well as attracts people to our city, bolstering economic growth. We should do everything in our power to protect our transit system. Increased fares would not be ideal, but, if it means maintaining current routes and service, so be it. Service reductions would only harm Pittsburgh and its economy in the longterm.

Other comments (bus and rail service reductions):
As a commuter traveling in from the eastern suburbs, the highways would not be able to handle all the additional traffic and would significantly increase travel times. The city already has limited parking capacity and without public transportation parking in the city would be even more of a challenge.

Other comments (bus and rail service reductions):
Publlic transportation is essential to all communities. It's necessary for some people to get to work, medical services, or shop. Not everyone may be using public transportation today, and may not realize that they, or someone in their familiy or neighbor, may need it in the future. Those who use public transportation not only cut down on traffic congetion, but are also helping to maintain a healthy environment.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
The $3.00 increase seems reasonable since most passengers only seem to have dollar bills and no change when they enter the bus. So essentially, the fare is already $3.00.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
Many in our city would no longer be able to use public transport to get to work.
Other comments (bus and rail service reductions):
I work at a restaurant, and public transport already negatively impacts the schedules people can work. The proposed reduction would negatively affect this issue, and ultimately will impact businesses' ability to staff their teams effectively. Our restaurant is on the north shore, and customers are always looking for places to eat after large events, but our operating hours are ultimately limited by our staff's ability to transport themselves to and from work. Limiting the services offered by PRT would only exacerbate these issues, and ultimately may cause us to limit our normal operating hours. Where we are at as a city and if we hope to grow economically in any way, we need to expand public transport as much as possible, not limit services. Also, to limit services which will ultimately affect the amount of time people can work, and then try and raise fares at the same time is absolutely wild. Find a different way cause this is not it.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Many people are already unable to afford basic necessities. Ultimately, we as a city should be able to figure out a way to offer public transport for free or at an extremely low cost to everyday riders. If there was less barrier to using public transportation, more people would use it and it could be a highlight of our city rather than a constant stress point for members of our community. Also, to limit services which will ultimately affect the amount of time people can work, and then try and raise fares at the same time is absolutely wild. Find a different way cause this is not it.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
We are seniors with a lifetime pass. We rely on the silver line trolley to get to all activities downtown such as ballgames, festivals , theater, and restaurants . We no longer drive out of our community .

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
I am job hunting and this impacts my ability to work non-remotely as I can't drive in the dark, A.M. or P.M.
Other comments (bus and rail service reductions):
I deliberately chose my home location based on accessibility to the T and I am sure others did as well. Cutting viable employment opportunities for taxpayers and deflating their home values will create a downward spiral, and will make working downtown, at the jobs our elected officials fought to draw here, even less attractive. Raising prices is not optimum, if there is any better way to make ends meet, but it's better than acting like a region in decline, which is usually a self-fulfilling prophecy. We need more people working downtown, not fewer, so Pittsburgh can continue to thrive.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Cutting back on service is a death sentence for the public transit system. When public transit becomes less convenient and less accessible, those who have the option to travel by other means will do so, and a decrease in riders with further weaken the system. Meanwhile, there are many people who have no other options and must rely on public transit, and they will suffer greatly as the public transit system deteriorates. The added stress of planning their lives around a severely limited public transit system is an unfair burden for them to bear. Funding public transit is a public good and must be prioritized.
In the past I relied on public transit daily to commute to work, to take my children to medical appointments and social events, and to go shopping. Even though I now own a vehicle, I would still greatly prefer to use public transit for a number of reasons - to reduce carbon emissions and air pollution, to avoid the stress and expense of parking in certain neighborhoods, to avoid the stress of driving in traffic, etc. However, our public transit system as it currently exists is too slow and cumbersome for me to use regularly. If the proposed service cuts are made, I will almost never be able to use public transit.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
In 2023 I was lucky enough to participate in the reduced fare pilot program and received free fare for a year. That was very impactful for me at that time; I did not earn very much money, and I relied on the bus to get to and from work every day. Receiving free fare significantly improved my life, and I felt hopeful that the public transit system would soon become more accessible and affordable for more families like mine. To see that instead it may become less accessible, financially and logistically, is extremely discouraging.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
This rail service has been a cornerstone of travel history and opportunity to the south hills without it just gives in to corporate greed. This brings people to our communities for work events etc. In a time where transit service is critical to ecinomic advancement we are choosing to derail it? Other counties and other parts of the us use these services to expand or maintain current services not extinguish it. Shame on us for allowing this to happen instead of looking for creative solutions to preserve our past and future...i dont get it!!

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I am a 67 year old senior who is blind and employed in downtown Pittsburgh who uses public transportation everyday. The proposed elimination or changes to the P 69 run will have a disproportionate effect on Trafford, Pitcairn, Wilmerding, Turtle Creek and East Pittsburgh communities. Currently PRT has a pick up stop at 5:48 at Timber Dr in the morning and delivers me to my place of employment at 5th Ave and Wood St. I return on the 4:3N/A route in the afternoon. If these routes are changed or eliminated I would be unable to get to work. These buses are crowded which shows they are needed in the community. I understand that PRT will be losing money next year but instead of eliminating entire routes the schedules should be adjusted so that the buses run when the routes are busy. This would accommodate the workers and the communities at large. I am opposed to changing or eliminating the P69 route.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
These cuts will destroy transit in Pittsburgh for decades, and the city itself will be permanently harmed. This is the schedule and routes of a small Midwestern car centric city, not the second most important city in PA that is currently a major cultural destination, and those car centric places are overlooked as destinations for work and for play, with transit playing a role. I understand that money is looking dire, but PRT *has* to find ways to get proper funding, or Pittsburgh will fall down several tiers as a city. The catastrophic consequences of cutting major routes and of stopping service at 11pm cannot be exaggerated. If transit is not useful enough, it will not be used hardly at all, and it won't come back. Pressure for funding absolutely needs to be laid wherever PRT can have influence.
Also, whatever ends up happening, PRT still needs to adapt the revised plan that is in the works. If we have to work with less buses than we need, at least those buses should be set up for how people use the bus in 2N/A25, not how they did 2N/A, 4N/A years ago.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I understand the seriousness of the lost funds due to sudden changes from the government but am shocked to see how many routes would be completey eliminated and the service reductions on others. Also, the lack of service after 11pm is crazy. I was happy to see busses running late like that again like when I first started riding years ago. I would get out of work late in the evening and really needed that ride home, so it's sad knowing so many will be affected by that. I don't have a good answer for this problem that PRT is facing but I think this plan needs looked over again, it's going to affect so many riders negatively and ridership may even go down.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
Other comments (bus and rail fare increases):
This isn't a super high fare increase but it may impact how often we use the bus. We will still ride, just maybe not as much.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
These proposed service cuts will negatively impact Pittsburgh in several ways:
1) reduced overall service on the system, which will be felt the hardest among those living in inner ring suburbs
2) Major Access service reduction which negatively impact some of our most vulnerable residents.
3) Less incentive for those with "choices" to take transit as existing routes in urban areas will be reduced. This will lead to more people making driving trips creating additional traffic issues in the City. When service is cut a reinforcing diminishing returns loop occurrs especially with those who have means and disposible income. One needs riders with "options" to use public transit to help prompt up the entire system for those who have no other choices other than transit. But people with means will only take public transit if it is timely, efficient, and gets them to were they need to be.

Other comments (bus and rail service reductions):
I grew up in the South Hills with a parent who did not drive, where the T was our lifeline for her job, getting to school activities in Dormont, and reaching the city for events. Now, as a car-free East End resident of 7 years, I rely on public transit for nearly everything. Many previous cuts have already impacted my flexibility and timeliness, but these changes would make it impossible to continue this way, making a car a necessity - even in the transit heart of the city.

I depend on the #2 Mt.Royal. It is my lifeline to work and food. Please.
Save the two. As an employee for GetGo at my location alone 2 coworkers depend on the 2 bus. I cannot imagine how many people that work in the North Hills that also depend on the 2. Losing the two would cripple the neighborhoods of Millvale Etna Glenshaw. I am sure that myself and lot of other riders would accept a fair increase.But to be completely eliminated would just be the worst awful thing to happen to this area in a long time. PLEASE SAVE THE 2 !!!!

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I ride the T several times a week into downtown, and these changes would likely require me to drive in much more often, costing me a lot more money, not only in gas, but also in parking fees as well where right now I'm paying just for my rail ticket and sometimes two dollars for parking at South Hills Village. This could increase my costs 1N/AN/A fold every week and I may need to look for a job outside of Pittsburgh and even Allegheny County.

The changes may not impact me but will impact my community and/or loved ones
Without the Silver line running to Bethel Park I would have to drive whenever I need to go into downtown, increasing trip times, adding traffic, and increasing costs for me with parking charges. One of the determining factors in choosing my place to live was the trolley stop across the street. If we loose the silver line, I may have to look at relocating which I can't really afford to do either. Also, if outbound service ends at 11pm, I could be stranded in town with no way home. It's already been challenging catching the first blue line train I see so I don't miss the last silver train leaving Washington Junction at night. If service ends at 11pm that means many businesses in town that typically are open later will loose profits & there's a higher likelihood of impaired drivers on the road who can no longer take a safe public transportation method home.
Other comments (bus and rail service reductions):
N/A
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I would greatly prefer fare increases to loss of service. It's not great, but that's a more affordable option than having to find an alternate transportation solution every time I need to travel between Bethel Park and downtown.

Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: SV SILVER LINE LIGHT RAIL (Elim.),
SUPPORT: RD RED LINE LIGHT RAIL (Major Reduction),
Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
There would be limited park and ride options available even if one would drive to avoid the silver line
Other comments (bus and rail service reductions):
I do not agree with the elimination of the silver line at all, reduction to the red line would make slight sense but if you were to eliminate the silver line you are also eliminating 3 free park and ride spaces that are currently available which would only bottle up Washington Junction which would decrease ridership even further. ALL institutions in Pittsburgh have been calling people back to work and this has been noticeable riding in the morning. I would maybe suggest having better staffing at the booths to be sure fares are being collected. Heck I would pay an extra $N/A.5N/A per ride if it meant keeping the silver line. There is a large population in South Park and Bethel Park that rely 1N/AN/A% on the silver line in order to access grocery, medical and employment. decrease the rides, keep it as strictly stopping at Washington Junction forever but to eliminate it is a huge disservice to the Bethel Park/South Park/Upper St Clair areas that don't have any other commuter options.
Please indicate if you oppose or support the proposed fare increases:

Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
increase it by $0.50 - there hasn't been an increase in over 5 years, if I recall, where services, supplies and materials have increased 15-25%. It is important to keep access and affordability but it is also important for a company to keep up with economic changes too.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Seeing how many routes will be cut, this is going to greatly increase car traffic and be horrible for the road infrastructure all around the city, which the city fails to maintain as is. Traffic will greatly increase and make getting anywhere, on public transit or a car, much longer and harder for everyone. Pittsburgh should be expanding public transit, this will be a major failure by our elected representatives to the people. This is a scary situation, and I am embarrassed that the country has come to this when it comes to public transit. I understand PRT is doing its best, and this isn't their fault. The state will fail the people it is supposed to represent, and I am embarrassed to call myself and Pennsylvanian because of this situation. If the states governments goal is to make everyone's life a lot worse, then they are doing a good job.
Please indicate if you oppose or support the proposed fare increases:

Other comments (bus and rail service reductions):
Let's help prevent cutting service for those who have always relied on public transportation. By cutting or eliminating services would ultimately hurt people who have depended upon the mass transit system all of their lives. There are people who have never had a driver's license, who in rural and surrounding areas that need transit.
Let make Transit Great Again!! Ride The Bus!!

Before raising fares and cutting service, I highly recommend that you read Almagro et al 2N/A24 "OPTIMAL URBAN TRANSPORTATION POLICY: EVIDENCE FROM CHICAGO", a National Bureau of Economic Research working paper.
From the abstract: " The optimal public transit price is near zero, with reduced bus and increased train frequencies. Combining transit policies with road pricing slackens the budget constraint, allowing for higher transit frequencies and lower prices, thereby increasing consumer surplus after rebates."
Please consult with urban and transit economists before making these decisions.

Other comments (bus and rail service reductions):
PRT allows my commute and travel to be much cheaper than driving. I already struggle with finances due to bills and this is one way I save money as do a lot of folks. This cut would be disastrous for Pittsburgh as a city and tourism and patronage to business would decrease significantly as there would be no public transit available to many pittsburgh neighborhoods that PRT currently services.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 1 FREEPORT ROAD (Major Reduction), 28X AIRPORT FLYER (Major Reduction), 40 MOUNT WASHINGTON (Elim.), 54 NORTH SIDE-OAKLAND-SOUTH SIDE (Major Reduction), 58 GREENFIELD (Elim.), 64 LAWRENCEVILLE-WATERFRONT (Major Reduction), 65 SQUIRREL HILL (Elim.), 69 TRAFFORD (Major Reduction), 74 HOMEWOOD-SQUIRREL HILL (Major Reduction), 87 FRIENDSHIP (Major Reduction), 88 PENN (Major Reduction), 91 BUTLER ST (Major Reduction), P68 BRADDOCK HILLS FLYER (Major Reduction), P69 TRAFFORD FLYER (Elim.), P71 SWISSVALE FLYER (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Many of the routes I use are often very full, and it feels odd to have them significantly reduced or eliminated when people are riding them. This will also impact access to downtown areas for sporting events, the Cultural District, and general downtown events. This cannot possibly be good for the city and downtown area as a whole.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I would rather see the fares increase than so many routes be reduced and eliminated.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
One of the great points about our city is it's rapid transit. This makes exploring the city for it's citizens and guests far easier, and can be made even better with the route changes proposed prior to the funding crisis. I feel these service cuts will significantly impact people's want to live, work, and play within the denseist parts of the city, significantly damaging the local economy.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
The fare increases seem a minor issue for the riding public in comparison to service reductions. Even the increased fares are less than the cost of gas to travel between most points.

Oppose or support specific reductions.
OPPOSE: 44 KNOXVILLE (Major Reduction), Y47 CURRY FLYER (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The 47 is the only near by bus. For the elderly residents of baldwin towers & all ages at the aldens housing. They can not get to stores or health appointments. They do not drive & can not afford car services. I would no longer be able to get to work as I do not drive. The closest I would be able to get is the rt 51 clover leaf & walk from there but there are no sidewalks on Lebanon church going towards Brownsville rd. Its a very dangerous place to walk & the disabled & elderly surely can not take that route. The 47 doesn't run Sundays or holiday so thats already an issue. Maybe instead of cutting the service out you find a way to add it to another bus route.

Other comments (bus and rail service reductions):
Of all the things that this city, and more broadly, this STATE, is proposing to cut funding for, publicly, affordably, and safely-accesible transportation should be at the bottom of the list. To think that in 2N/A25, we should have to CONVINCE our state and local officials of the importance of such a fundamental basis to human existence (AKA, "mobility"), is itself, an atrocity. Any person(s) so deeply invested in thwarting human movement, should be met with intense scrutiny, at best.
Why do you support, human isolation?
Why do you support, lack of human growth?
Why do you support, the most malignant attempt to stagnate (poor) humans, within the state of Pennsylvania, in MY lifetime?
What is WRONG with YOU!?

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I would not be able to easily access school, gym, or work, all of which are in downtown. I have to be at school (Duq) early in the morning, which the 19L is the best bus for by far, and often leave work around 1N/A:3N/A p.m. or 11:N/AN/A p.m., which I take the 16 back from. I would have to change my work schedule and spend significantly more time commuting to/from school and work, it is not a short commute on the 16 as is.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
Other comments (bus and rail service reductions):
All the downtown located business requiring new and enhanced Return to Office Mandates (RTO) just because it is the popular thing to do right now - doesnt square at all with these proposed mass transit cuts. A combination of the RTO mandates and the transit cuts will result in many thousands losing their jobs. Downtown employers generally dont care about their employees and want to find additional reasons to discard them anyway. Killing the bus routes at the same time especially to areas where there is no existing T train service will be devastating for employees subject to largely unnecessary but newly popular RTO push. Throw in the limited parking in downtown for special events makes driving and parking a fiscal impossibility for many of us. There are no good options left. This situation isnt going anywhere good for everyone including the downtown businesses and employers.

Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
I would have to take ACCESS instead of fixed route service
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I am an Orientation & Mobility Specialist, training students and adults with blindness and low vision in the city of Pittsburgh. All of my 18 students and their current bus route would be negatively impacted by these changes. Routes being eliminated will be the most detrimental and force students to be unable to travel to locations for shopping, school or job sites. Route changes with fewer options will force students to leave for work or school HOURS before they would need to be there. Many stops for my students who are blind or have low vision are not safe to stand or cross at already. This will add an additional burden to them to "figure out" how to become contributing members of society when driving will NEVER be an option for them
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
We are passing costs onto customers who are already disproportionally impacted and economically disadvantaged in our community. It is unconscionable.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I won't be able to depend on a guaranteed ride
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel or rely on a family member or friend
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
As an O&M specialist, many of my students rely on ACCESS to navigate to appointments when fixed route service is unavailable or unsafe for them to travel to. If you are blind, deaf-blind, or have physical or other impairments that impact your ability to travel to and wait at a bus stop; this will directly impact their ability to participate in all activities of daily living. There is a lack of sidewalks, poor sightlines (due to hills or curves, trees, etc.), lack of stop signs or pedestrian crossing signals...the list goes on and on; all of which already impede safety of travel in and around Pittsburgh. removing an ACCESS option makes even getting dropped off at a bus stop a non-option.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for ACCESS or other essential expenses
I would take less ACCESS trips
I would have to switch to another mode of travel or rely on a family member or friend
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
This proposal punishes those who need us the most. Those with disabilities are overwhelmingly economically disadvantaged already--to charge more is a crime.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
One of the things that makes Pittsburgh a preferred city is public transportation. We are a blue collar town and people need to be able to get to work, doctor appointments, grocery stores, etc. The previous route changes already created hardship for people of varying ages, but it also impacts the elderly. Many rely on public transit and ACCESS65 to maintain their daily living. We have here in Pittsburgh the second largest aging population in the country!
As a Pittsburgh born and raised native, I started using public transportation at a young age living in a home with working parents and this allowed for the ability to meet household needs. It helped me gain independence as I know it does for many today. With the already increased costs, many are struggling to make ends meet. Working at a human services agency, we see budgets that include monthly public transportation in order to maintain a stream of income, get their children to school and medical appointments, and all the things necessary for their family to thrive. I urge you to reconsider these changes and their significant impacts, especially on economically struggling neighborhoods within your service area.

I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
Other comments (bus and rail service reductions):
Many members of my community and I rely heavily on Bus Route 38 for our daily commutes to work, childcare, and essential errands. This route is not a luxury—it is a lifeline. Eliminating it would leave us with no viable public transit alternatives. For many of us, owning a car is simply not financially feasible. Cutting this route would severely impact our ability to live and work in this city.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The mark of a major urban area is its public transportation. To end the Silver Line entirely is a sad commentary on our failure to be a major urban area. To end the 51c Carrick line (where I grew up and went to school) will be devastating to the lower income people, students, and elderly who live there.

Oppose or support specific reductions.
OPPOSE: 39 BROOKLINE (Elim.), 41 BOWER HILL (Elim.), RD RED LINE LIGHT RAIL (Major Reduction),
Service change impacts (bus and rail):
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Brookline is supposedly the third largest neighborhood (population-wise) in the City of Pittsburgh. The two bus routes that service Brookline (39 and 41) are proposed to be eliminated, thus leaving this large neighborhood with no bus service (Note that the 41 only serves the western-most portion of the neighborhood; the 39 is the only route serving the entire neighborhood.) Also, it is misleading to think Brookline is served by the Red and Blue T lines, simply because it "lies between" these routes. Relative to Brookline, the Blue line is basically at the bottom of a steep ravine (I.e., formed by Saw Mill Run) and even if one could navigate on foot the steep ravine, most all of the few streets that go down the hill have no sidewalks. At best, the Blue line realistically serves only a few houses at the easternmost portion of Brookline. The Red line is west of the western-most portion of Brookline. The Red line is proposed to have major service reductions. Unlike the Blue line, it is true that the streets leading to the Red line have sidewalks, but there are still reasonably steep hills to navigate, and central Brookline is probably about a half hour or so walk to the nearest Red Line stops in Dormont or Beechview. The proposed cuts would leave Pittsburgh's third largest neighborhood without bus service, and for those who would venture the long walk to the Red Line would face major schedule reductions.

I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The neighborhood where I live (Greenfield) would be completely left without public transportation, which I have taken to work for the past 3N/A+ years. We recently sold off one of our cars and my wife drives the one we have left to work, so not only do I want to take public transit, it is necessary for me.

Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
I use transit mostly for going to/from downtown for events, as parking may be a problem.
Other comments (bus and rail service reductions):
We lost our one bus route years ago, so I cannot use it for a regular commute anymore. I know your hands are tied with not having enough money, but these cuts will devastate thousands of people who rely on those routes.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Again, you have to pay the bills, but it's already really expensive to use the transit system. We need more state subsidy for this, they need to realize that if people can't get to work, they can't pay taxes.

Oppose or support specific reductions.
OPPOSE: SV SILVER LINE LIGHT RAIL (Elim.),
Service change impacts (bus and rail):
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I am able to walk to the low-level stop at Beagle and currently utilize it every weekday. If the Silver Line is totally eliminated, I would have to buy a new car, which would obviously be a much higher monthly expense compared to my current monthly pass. I could potentially use the Mon Valley flyer, but I would not be able to walk to its stop. My wife would have to drop me off, which is a pain. If there is no choice but to completely eliminate the Silver Line, I propose that there be a single shuttle bus that loops between Library station and Washington Junction. It would be a single 3N/A-4N/A minute round trip, ideally be a limited expense compared to the entire line or having multiple shuttles, and would allow riders such as myself to access a stop conveniently located to where we live without having to incur the additional expenses.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I depend on PRT for transportation to Pittsburgh for work 4x a week. My employer is NOT flexible with this in office requirement. To get to work I would need to drive in and pay for parking which would range from $5N/A-$1N/AN/A/ week, and on top of that would be costs for gas and wear and tear on my car. This is totally unacceptable. We don't need Red paint. We need public transportation. I'm fine with a rate increase.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I work for South Hills Interfaith Movement, a human services organization located in the South Hills. I am highly concerned about the disproportionate impact these service reductions will have on lower income people who are already struggling and rely on public transportation. These cuts will further cut off some communities entirely from public transit access and greatly reduce people's job opportunities that they can access. One of our organization's offices is located along the Silver Line, and many people use the Silver Line to get to us for food and other basic needs. The Silver Line also serves the downtown Bethel Park area including municipal services and many businesses. The loss of this T line will greatly weaken the municipality overall. The loss of service after 11 pm will also cause safety issues for those who work at night and likely lack other safe transportation options to get home- not everyone works 9 to 5! And this cutback will also have an overall negative economic impact on the city, particularly for sporting events and special events like concerts.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I recognize that fare increases are necessary when facing such a budget shortfall, and I would rather see increased fares than service cuts, particularly if options like Allegheny Go remain an option to help reduce the cost for low-income households.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
Again, I am very concerned about the impact of these cuts on some of the most vulnerable members of our community, seniors and disabled individuals. ACCESS is a lifeline that helps many of these individuals continue to live independently and get to their important appointments.

Other comments (bus and rail service reductions):
Hello. I have epilepsy. I haven't been legally allowed to drive since 2N/A22. I heavily rely on public transportation to get around, especially to doctor appointments & work when I'm healthy enough to do so. I'm sincerely praying & hopeful my seizures will get under control again. But until they do, I need PRT. My son begins high school this fall & was accepted to CAPA. He needs public transportation as PPS has high schoolers catch the bus & I don't want him downtown any longer than necessary. Public transportation is crucial for getting around the city for many people like myself, teens, & those who simply don't drive. We've already experienced so many reductions in routes & availability. So many residents are still reeling from the 71A, 71C, & 71D no longer going downtown. The 71A being shortened has been a great personal loss to my family as well. The 89 is the closest bus to us, but the availability of the route has already been so reduced.

OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
So many of our youth & elderly rely on public transportation. Times are so hard now. People without access to more income will certainly struggle. A quarter here or a couple extra dollars there seriously adds up when you're barely making ends meet. Someone has to care about those that are less fortunate.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Switching to another mode of travel would be more expensive
Other comments (bus and rail service reductions):
I take the 4 Troy Hill bus to downtown to get to work in Oakland. If the 4 and the 7 Spring Garden bus routes are both cut, I will no longer be able to commute via bus. Luckily, I have the option to drive, but parking in Oakland is already limited and expensive, and this will only become worse once bus routes are cut and former bus commuters are fighting over parking. And ironically, these route cuts are happening as the new PRTX University Line is being built, making it almost useless for those (like me) who would no longer have a way to get downtown to use the new line.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases

I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
With my job increasing the amount of time that I have to spend in the office and the elimination of my bus line with the proposed changes, I am put in an impossible situation. I'm unable to drive and fully rely on public transit in the North Hills, where service is already scant. There are two bus options that are within walking distance of my home, and both of these would be eliminated, making me unable to work, shop, access medical care, etc. So many people will lose their autonomy if these proposed changes are accepted. Service is already so limited, these extra cuts will be catastrophic in the lives of so many Pittsburghers who are fully reliant on these systems.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 38 GREEN TREE (Elim.), 39 BROOKLINE (Elim.), 41 BOWER HILL (Elim.), RD RED LINE LIGHT RAIL (Major Reduction),
SUPPORT: 36 BANKSVILLE (Elim.), SV SILVER LINE LIGHT RAIL (Elim.),
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to access medical care locations
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Reduction and elimination of services from the Bethel Park and the South Hills will drastically increase the amount of traffic on Washington Road and West Liberty through the tunnels in and out of the city. Everything will become more congested, increase travel time, and leave many low-income workers, the elderly and people with disabilities without service.

Service change impacts (bus and rail):
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
It will be harder to move to a neighborhood outside of the immediate city that has public transit.
Other comments (bus and rail service reductions):
Reducing public transit will make it harder for everyone, not just public transit riders. There will be more cars on the road and there will be a necessity for more parking spaces. Pittsburgh will become less welcoming for visitors and college students from outside the city who may provide income into the city.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
Taking the bus may still be more affordable than owning a car which needs to be maintained and have insurance, so I support a fare increase if it would avoid service cuts.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
In my neighborhood of Regent Square, it is already incredibly hard to access the rest of the city by bus. Places that are ten to fifteen minutes Way often take over an hour to get to, with multiple busses involves just going one way. The reductions to the bus service would drastically impact how I navigate the city.

Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 28X AIRPORT FLYER (Major Reduction), 29 ROBINSON (Elim.), 31 BRIDGEVILLE (Major Reduction), 38 GREEN TREE (Elim.), 81 OAK HILL (Major Reduction), 82 LINCOLN (Major Reduction), 88 PENN (Major Reduction), 91 BUTLER ST (Major Reduction), G2 WEST BUSWAY (Major Reduction), G31 BRIDGEVILLE FLYER (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
I would have to take ACCESS instead of fixed route service
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I am 7N/A years old and very low income. I live in Crafton PA. Eliminating the "29" would severly impact myself and other residents that live here. This bus is used to get to the GE in the Crafton/Ingram shopping center and anywhere in Robinson. Please do not eliminate the "29" service. I also use the "28X" to get to and from the airport. I can get lower air fares by flying in later at night. I take the "28X" at 11:3N/A PM to get home. Please keep this airport service at least until 11:3N/A PM or 12:N/AN/A AM. I also use the "G2" all the time. Please do not impose a major service reduction to the "G2". I also use the bus all the time to go to other places downtown, the Hill District, the Strip District, Carson St, Squirrel Hill, Oakland and the University area just to name a few areas. I have considered giving up my car due to increased expenses and environmental concerns. Having a great Pittsburgh bus system made that consideration possible. Now I will have to rethink whether that is a good idea or not. I think that the PRT should rethink their priorities. Why did you spend money on a new University line when you didn't have the money? Why are you still buying new electric buses and building a new maintenance facility when you don't have the money? Why don't you solicit funding from all the Universities and private companies that are in Pittsburgh, moved here, and greatly benefit from the PRT's resources? Get creative, figure it out - instead of just massively cutting service and raising fares. Thank you.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
With rising inflation, other increasing costs, and Federal and potential State cuts to social programs increasing fares will adversely affect many Pittsburgh residents. I am fortunate that I have a senior bus pass. If I didn't have that pass I would not be able to afford to ride the bus more than maybe once per week - if that.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I won't be able to depend on a guaranteed ride
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel or rely on a family member or friend
Other comments (ACCESS service reductions):
Many seniors and people on disability rely on ACCESS to get to appointments, grocery shopping, or social services like the Senior Centers for lunch and activities. Right now I take the bus, and I still have a car. But if I had to give up my car, and bus service is cut back, then I would have to rely on ACCESS to get around.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for ACCESS or other essential expenses
I would take less ACCESS trips
I would have to switch to another mode of travel or rely on a family member or friend
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
Right now I do not use ACCESS but I may have to in the future. Cuts and fare increases would greatly affect my ability to use ACCESS. I have friends who use ACCESS all the time and are very low income. These cuts and fare increases will negatively impact their ability to use ACCESS and pay for it.

I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I take the 4 bus to Troy Hill almost every day, without it, my travel time would go up by over an hour as I would need to walk from downtown to Troy Hill. I know thousands of others will be similarly impacted. Public transportation IS the future of sustainable communities; please we don't need more cars on the road.
Please indicate if you oppose or support the proposed fare increases:

Oppose or support specific reductions.
OPPOSE: 88 PENN (Major Reduction),
SUPPORT: 87 FRIENDSHIP (Major Reduction),
Service change impacts (bus and rail):
None of these apply to me
Other comments (bus and rail service reductions):
Too many routes overlap. The 87 Friendship overlaps the 86 Liberty and 88 Penn for most of its route, then it runs between them for a long section where all riders are within 2 blocks walk to the other two. Finally, it goes to Garfield and Morningside, overlapping 71C and 75. Although the 87 is closest to us, eliminating it would have almost no impact on our riding.
Fewer routes running more often (and reliably!) would be better for almost everyone. Changing busses is problematic because there are such big delays between arrivals. For the East End, have small loops to get riders from neighborhoods to Fifth, Liberty, and Penn and then frequent busses to other areas. Changing busses isn't a problem if waits average less than 1N/A minutes. In contrast, the current approach of winding routes to connect as many neighborhoods with no changes results in slow, unpredictable busses that are not attractive to riders with other options and take longer overall despite not connecting.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
The pricing on month passes is silly. Increased ridership will come from making it attractive for commuting, but the monthly pass is priced as if riders will use the bus all day everyday. That discourages commuters. A monthly pass should reflect likely use and represent a savings to riders. If those who truly depend on the bus for all daily rides benefit by better monthly pricing then good, and it will be offset by more commuter usage.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I think we're missing out on a key opportunity to make Pittsburgh a thriving city when we cut public transit. A well-connected city is more equitable, more vibrant, and safer. Cutting services is a downward spiral: it will push more people out, reduce ridership, and make it less and less accessible for folks.

Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
Other comments (bus and rail service reductions):
I take the bus to work every morning not out of want, but out of need. With parking as expensive as it is downtown, I couldn't afford to get to my job every day if I could no longer rely on the bus I take every day with how tight my finances have already gotten over the past two years thanks to food, rent, and utilities getting more expensive.
I would take the P1, but no free parking exists near the East Liberty station. Free parking would make that bus route more popular and accessible to anyone within a reasonable driving but unreasonable walking distance. Making a commuter lot similar to the one that exists at the Wilkinsburg station would be a huge boon.
Eliminating the O1 would be extremely detrimental. A smaller bus would be a good reduction - or even less service - but please don't eliminate it. Many residents north of the city rely on it daily to commute to work downtown. During morning commute hours, I have never seen it empty.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
With how Americans are spending more on every service imaginable, and given that buses are taken more by lower-income Pittsburgh residents, this will be very difficult to support. But I would support fares raising by 25 cents if that meant continued support to Highland Park and the 71B line.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
Getting to my job is already hard enough with how infrequent the T is running. Reducing service even more is insane. Pennsylvania should just fund its public transit correctly instead of slashing the budget even more. Heck, I would even be fine with raising taxes. I almost wish we would have a sales tax that went DIRECTLY to paying for public transit.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
This fare is already in line with many other fares across the country. I have no problem supporting my public transit with a slightly increased fare. You will have many others that will oppose this because any price increase is bad. But, I am someone who likes paying their taxes when they support the community. My fare payments directly support transit.

That being said, I only support a SMALL fare increase. If you were to raise it by a dollar or more, that would be a problem and I would oppose it. Additionally, fare increases should not be how public transit is funded. Public transit is for the public good.

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I believe these changes would create busses that are too crowded and not safe. Especially when a bus breaks down mid-route, it is always helpful to know another bus is not far behind and/or can hop on a different bus that follows the same route. This also really limits the places people may choose to live and work in our pittsburgh neighborhoods. As the community becomes more upset with the reduced routes, crowded busses, and inconvenient schedules, PRT will loose even more patrons and even more profit from fares.
Please indicate if you oppose or support the proposed fare increases:

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Eliminating the Silver Line would be detrimental to South Hills residents who do not own/have access to a car or who choose to use PRT as an alternative to driving. I have utilized PRT round trip (Silver line T then transfer to bus in downtown) to get to my employer located in Oakland since 2N/A17. The Washington Junction park & ride lot cannot accomodate an increase in cars due to parking lot constraints and it would be cost prohibitive, if not impossible, to obtain a parking lease in Oakland.
I also rely on PRT for dropping my vheicle off to a local service station for inspections and service. It is one of the reasons I purchased my home along the Silver line with a stop within my community.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Access to reliable and extensive public transportation is VITAL to the wellbeing and health our city and its residents. More than half of the employees at my place of work rely on bus lines that would be cut to get to and from work. Thousands of school children would not have safe, reliable means to get to school. Reliance on cars would cause our streets and bridges to clog and make our already below average air quality to worsen. This plan would cause unemployment, truancy, and homelessness to skyrocket. It is not a solution to any of the problems that face Pittsburgh. This plan would damage the quality of life of every Pittsburgher and resident of Allegheny county.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I need to take the bus to get to my dentist! I live in East Liberty and my dentist is in downtown, where parking is very limited and expensive. This was the only dentist I could find in my network who accepted my insurance.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would take less public transit trips
I would have to switch to another mode of travel
Other comments (bus and rail fare increases):
These fares are very expensive. This is NYC level of fare rates, which is unacceptable because Pittsburgh does not need to stoop to that low of a level when it comes to unaffordability. It is insane to force residents to pay NYC level prices when this is not NYC!

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
As someone who does not own a car, the services of PRT are essential to me. With the elimination of the 41 bus route and reduction of the Red Line T services, I would not be able to rely on public transit for my commute to work and locations like my doctor's office, grocery store, and more. I chose to live in my current residence based on proximity to public transit. We already deal with vehicles being taken out of service often, so any further reduction would mean the loss of so many more riders. Reduction of services will be unsustainable and lead to the end of PRT. Please do not make these changes

Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
If these changes occur, my 87-year-old grandmother's caretaker, who relies on public transportation, would not be able to get to my grandmother's home to take care of her. She relies on the Bower Hill and Bridgeville routes and uses them daily. Since I don't own a car, I would personally lose significant flexibility to take public transport to doctors appointments, train stations, and social activities.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
The current fares are already more expensive than in major cities like Washington D.C. This fare increase would make it even more expensive than New York City. There is no reason why a small city's fares should be this expensive. Research shows that more available and reliable public transportation at low costs leads to more ridership and REVENUE. This is the exact opposite measure that should be taken. You are only hurting low-income people, young people, and people of color.

Other comments (bus and rail service reductions):
Cutting public transit should be thought of as reducing the capabilities of the circulatory system of any given human being; neither is good for its host body! Healthy, robust circulatory systems translate to healthy people, and healthy, robust transit systems translate to a healthy region.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Getting rid of the busses is an abhorrent idea. The travel ability would be cut off completely for so many locations. I could possibly understand decreasing time between *certain* routes. But eliminating anything is destroying the citizens ability to commute anywhere. Work, school, medical care, groceries, entertainment and even more. All of these things would be reduced to finding and a begging a friend or family member with a vehicle, uber/Lyft, or walking. And I don't know about you but walking from Bridgeville, or Tarentum into downtown? Does not seem like a fun *entire* day to me.

The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
This one I am going to comment on, with a personal level of knowledge.
We are a 2 adult, 2 income home. We both use PRT to get to and from work. (Because we do not have a car).
We make too much money for government assistance.
We are surviving off the graces of our friends and family and food banks.
Paying essentials like food utilities rent and medical supplies is crucial, and barely making it by.
We can currently squeeze in the cost of the passes. With the increase, it would be incredibly difficult at first to adjust. But after awhile I believe it would be okay. If adding a small amount to rides would keep the rest of the busses and trolleys from being eliminated so be it.

Other comments (bus and rail service reductions):
I think PRT should resurrect their Sales Team and begin selling Bus placards for the side and back of the busses outside and sell all of the spaces in the bus Right now they are all dedicated and given away to non-profit organizations.
Also, PRT should think about the possibility of NTRs ...Non Traditional Revenue streams get creative!!!
Perhaps a small annual charge to Seniors above a certain income level. I see many wealthy seniors riding for FREE.

I would raise the county Gas tax.

I would like to see the Bus Numbers on the sides and back of the buses please.

Otherwise, I LOVE the PRT system so much that I sold my car. You go most all of the places I need to go...Oh, can you make it easier to get to the Zoo Bus drops off at Baker Street. I have to walk all of the way across the parking lot before having to walk UP the Zoo hill There is a bus stop closer to the Zoo Entrance. More children and families would have better access to the Zoo.

Oppose or support specific reductions.
OPPOSE: 31 BRIDGEVILLE (Major Reduction), G2 WEST BUSWAY (Major Reduction),
SUPPORT: 29 ROBINSON (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The G2 is always full during peak times. This is a model route for commuter transit. Reducing peak service will result in overloaded buses, more traffic and congestion downtown, reduce PRT revenue, and go in the opposite direction that our city needs. Reliable transit is critical for Pittsburgh and the surrounding region to succeed and these cuts should be limited to routes that are underutilized. Reducing options will only lead to more economic collapse downtown as fewer people will opt to work in person due to the cost.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
Fare increase should have some exception for low-income users. As a moderate income user, the $5.50 spent on my daily commute is a bargain compared to my $20 parking plus gas on days where I drive. An increase is reasonable and still would leave room to save vs. alternatives.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Our family lives in one of the most heavily-served transit corridors in the city. At it's current level, we're just about at the bare minimum level of service that's required to make transit a daily choice. In the past, you could certainly get away with hollowing out mid-day trips and non-downtown trips, but that world doesn't exist anymore.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
If the federal minimum wage doesn't go up, the things that get purchased with those wages shouldn't go up. We cannot make services that should be perceived as public goods more expensive.

I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
My entire life has been dependant on PRT since born. My family was never able to afford a car. I still rely on public transit daily. These cuts will be detrimental to our community. This will harm the economy as well as many people will be looking for new jobs due to the cuts, especially the 11pm cut off. Families and seniors rely on these busses for survival. It would be cruel to leave some areas without access to jobs, education, and proper grocery stores. That will be the outcome of these cuts. Mt. Washington specifically has a large elderly population that relys on public transit and the terrain is not forgiving enough for all bus routes up here to be eliminated.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
Other comments (bus and rail fare increases):
It again feels cruel too make mostly impoverished people pay a higher price for a service that is being made less accessible to them.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
I would no longer be able to access medical care locations
Other comments (ACCESS service reductions):
I use access for a life saving treatment that I cannot drive after. Without this I would be forced to use a ride share, which would add over $100 extra to my expenses monthly.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
I would have to make decisions about whether to pay for ACCESS or other essential expenses
I would take less ACCESS trips
I would have to switch to another mode of travel or rely on a family member or friend

Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 1 FREEPORT ROAD (Major Reduction), 39 BROOKLINE (Elim.), 41 BOWER HILL (Elim.), P10 ALLEGHENY VALLEY FLYER (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
Please consider how many senior citizens depend on bus/rail service on a daily basis. I am retiring at the end of the year since my bus route is one that will be eliminated rather than continuing to work in downtown for another 2-3 years. I also take a bus to my 92-year-old mother's home. So now I'll have to get a ride to my first bus and then from downtown take a bus or T that will get me within about a mile from her house, walking that distance with an overnight bag. There has to be a better way than these drastic cuts in service. I think most riders would accept a reasonable fare increase if service was continued with minimal reductions.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to move to another home/dwelling where transit is available
I would have to switch to another mode of travel
I would have to seriously consider to another home/dwelling where transit is available
Other comments (bus and rail service reductions):
My biggest reason for doing this survey is the proposed closure of the Library Line and ending the Red Line at Overbrook Junction. As someone who travels between the Library Line and the Beechview Line very frequently, these proposed reductions specifically will make it much harder to get between those two corridors via transit than it already is.
However, I am aware of the current conditions of the Library line tracks, and as an alternative I do believe a bus running along the Library Line at this point, even permanently, could be a good alternative. I believe it would offer more flexibility than light rail, with not only in routing and stop placement and adding stops near stores and businesses, but also because it could meet ADA requirements given I would think rebuilding all light rail stops to wheelchair accessibility would be quite expensive. I currently do not live in the system walkshed due to the Center and Lindermer T stop eliminations 13 years ago. Bus stops near the Bethel Park Shopping Center and apartment complexes on Brightwood Rd could reduce the walk for us that live in the area that according to the 2N/A19 Equity index is slightly higher than in most of Bethel Park. Making transit a more frequent and close option to an area where people would probably need it the most would make a big difference in access.
Also, I have been wondering what these proposed reductions would mean for weekend service as the proposed reductions only specify weekdays. Lastly, I don't think service cuts should happen as early as February 2N/A26. Looking at the proposed budget PowerPoint from last month, I see there's set to be money in the reserves available through FY2N/A27 and then an unfunded deficit beginning in FY2N/A28, and in my opinion cutting too soon could close the door on funding, and it would give the Legislature a reasonable amount of time to realize that transit funding is needed. If service is cut too soon, I feel the Legislature will not take up the option to fully fund transit if service is already cut. As I've heard many times in my life, once service is gone, it's hard to bring back.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
As a compromise if we can't stop all service cuts and fare increases, I support raising the fare to $3.00. A fare rounded up to an even-dollar amount is easier for people to not have to search for coins, and the cost-of-living has increased significantly since the last fare increase. So I believe even if not all funding comes through, fares could go up to at least $3.00.

Other comments (bus and rail service reductions):
Public transportation is what makes living in a city area great! I'm fortunate enough that I don't heavily rely on it for my everyday necessities, but I often use the bus to go to different events and neighborhoods. These proposed cuts will no doubt be detrimental to the overall state of public transit in Pittsburgh. People will no doubt take it less often and have to resort to other services like Uber/Lyft which in general does not provide a net benefit to communities. I've traveled extensively to other cities and countries that have a very consistent and flexible public transportation system and they all are thriving much more than car based cities. Look at any popular tourist city or country, they ALL have awesome transportation systems. Chicago, Toronto, obviously Japan and most of Europe as well heck even Cincinnati has an awesome downtown rail car system. Japan is well know for its train system but their bus system is just as reliable and easy to use in both large cities like Tokyo but many rural areas as well. I was shocked that I was able to take a bus in rural Onomichi Japan and looked up the route just an hour before. It's 2N/A25 we surely should be making improvements to public transit not slashing it. Everyone know is constantly talking about visiting places that you can easily use public transportation.

I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
Cutting public transit further and further, paints the city as a car centered environment. Gutting access to busses will force more cars onto the roads (for folks who can actually afford to purchase a car, if not having owned one previously, not to mention the folks who won't be able to afford to purchase a car in the near future such as myself). This will further grow the already awful parking situations around Pittsburgh. The safety for bikers and pedestrians will be diminished. That's of course not to mention again, people who do not own a car and won't be able to- they, I, will lose access to a mode of transport to get groceries, medical appointments, work, meetings, jobs.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):

I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
Our city needs this funding! There are people like me who do not own a car and cannot afford rideshare services just to get around the city. I use the bus to get to my job, to my doctor's appointments and even just to go grocery shopping.
Not to mention the high amount of elderly people that we have living in this city. How are they supposed to get around? And it bothers me that people with disabilities will now have a harder time trying to get to their destinations.
These changes are essentially ruining people who are underserved to begin with. Basically, if you're below a certain income level or if you have a medical condition that hinders you, you have to struggle to be able to get around the city of Pittsburgh.
Please indicate if you oppose or support the proposed fare increases:

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
We are trying to be a vibrant city that provides support to all people. Without Regional Transit we will be even more of a traffic jam and unpleasant place to live. Transit represents 3N/A-4N/A% of our carbon out put- we should be doing EVERYTHING we can to become a public transit city so people can enjoy the arts and events without parking hassles and traffic jams, so people can get to and from work without stress and so people who need extra support can have a quality of life a major urban center should offer! We were headed in the right direction- let's get off gas and build a beautiful Pittsburgh!
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
In terms of fares, as long as there is an approach that supports those who can't afford the hikes. I know it takes money to have regional transit, but it shouldn't be so high it excludes the people who would use it, obviously!
Other comments (bus and rail fare increases):
Again, Let's prioritize the quality of life in Pittsburgh! Less pollution, healthier people getting to places they want to be, ability to be out at night and in the day time, welcoming to visitors who may not have cars, supportive of our workers who don't want to maintain a car (yea! less traffic)... keep the good working going don't cut it!
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Many of my neighbors rely on ACCESS to shop, visit doctors and enjoy the city. It's an amazing service with helpful caring staff and if anything it needs more support to meet the already existing need.
Other comments (ACCESS service reductions):
Many of my neighbors rely on ACCESS to shop, visit doctors and enjoy the city. It's an amazing service with helpful caring staff and if anything it needs more support to meet the already existing need.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
Again, we want the system to work for the people who need it most. If we can afford to pay, then increase the fare but if it excludes people we need a fare system that supports those with less resources.
Other comments (ACCESS fare increases):

OPPOSE: 8 PERRYSVILLE (Major Reduction), 12 MCKNIGHT (Major Reduction), O1 ROSS FLYER (Elim.), O5 THOMPSON RUN FLYER (Elim.), O12 MCKNIGHT FLYER (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
Other comments (bus and rail service reductions):
I fully oppose the changes to eliminate all flyers, you are totally screwing the workers who are going into town for employment!! To transfer these routes to other lines, buses will be at unsafe limits, The N/A12 mcknight flyer is always packed, to move them to the 12 you are making the ride more dangerous with more people on the bus, dangerous for the driver and anyone who will be stuck standing. I ride the ross flyer (N/A1), when the N/A12 pass my stop, it is totally full, the N/A1 has its moments of being full also. With the HOV lane from the Hill being closed, it is already a longer ride dealing with the increased traffic, not to say also the decking on the Veterans bridge is having issues also with the movement of lanes to be safee
i have no objections to increase the cost to ride, you are proposing 3 dollars, I would pay even more than that to ride to work, It is cheaper than driving, and paying to park downtown. I wish more thought would go into the planning, and realizing who is using some of the routes. You are making those who live outside the City of Pittsburgh more isolated with services
Please indicate if you oppose or support the proposed fare increases:

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
My bus line 38 Greentree is heavily used during rush hour time frames and used steadily the rest of the day. If PRT shuts down my line, I'd have to get to the Carnegie Bus way. With the Banksville and Greentree lines eliminated, hundreds more riders would have to drive to Carnegie and rush to the open parking spaces. Are there enough parking spaces for hundreds of cars there? Probably not. This will increase traffic through Carnegie as well. If I would have to drive to town I'd have to pay parking rates I cannot afford.
Please indicate if you oppose or support the proposed fare increases:

Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I am deeply concerned that this will exacerbate the already difficult commute for people without cars. These are the people we rely on at our business to perform essential duties. They are already struggling with long commute times due to needing to take multiple connections, wait times (miss yours, need to wait an hour), and long walks to stops. These impacts may not seem like much, but they are critical to some...for instance a parent that is held up at work for 1N/A minutes and misses a bus, now has to make alternate arrangements for picking up a child. A person with a disability that can no longer make it to their stop. Time taken away from family and house care. Increased DUIs due to lack of late busses (uber is expensive!). Many people are already struggling enough. Find another way to cut budgets. Lobby the state to approve recreational cannabis and use the funds for busses. Just not this again.
Please indicate if you oppose or support the proposed fare increases:

The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
ACCESS is one of the few ways people with disabilities can retain independence, even if moderate. When we cared for an ill parent, we both worked full time and ACCESS was the only way for the parent to get to medical appointments. This is true for many, and especially true for the many elderly and disabled people who do not have a support system in the area who can drive them to appointments and get medicine and essentials.

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
Less than once a month
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Entertainment
Social activities
How do you identify yourself? Select all that apply.
White
What is your age?
35-44
How would you describe your gender identity? Select all that apply.
Prefer not to respond
Which of the following best describes your 2024 household income?
$150,000+
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
N/A

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Eliminating the Silver Line T service would cause major issues for many in the south hills. The Silver Line along with other T ridership has likely decreased since the pandemic because of the pandemic, then just as the pandemic was ending and people were beginning to feel safe riding public transportation again, major construction projects have severely altered the ability to do so. I understand funding issues and that public transportation is a public good that needs to be funded by government subsidies. I would urge all decision makers to not cut the Silver Line. It has already been reduced to only running to Washington Junction during construction of the tunnel. The amount of riders this has affected likely can't even be determined because many like me, have chosen to find other modes of transportation rather than have a commute increase by 25% or more due to these temporary changes. However the cost to myself and others of not having the option of riding the T into downtown for work and other needs, is significant and unsustainable. I will likely need to find a new job if Silver Line T service does not resume at least during rush hour times. I urge the governor of PA to not allow this to happen. I also urge Pittsburgh Regional Transit leadership to look for other options rather than eliminate entire routes and service areas such as the Silver Line.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
In a better governmental system such as many places in Europe and Asia, our public transportation would be supported by government and inexpensive. Because we don't live in a country where the average citizen understands why public services such as public transportation should be funded by the government, we are in this predicament. If I had to choose between paying a little more or no public transportation, I would choose to pay more, if I could afford it. However, if the increase costs as much as driving, many will choose to drive, which will make traffic and pollution even worse.

Other comments (bus and rail service reductions):
I ride the P1N/A Allegheny Flyer. Discontinuing this route would not only impact me, but many others who ride this bus and have rode for 1N/A+ years. Please do not take away this bus as I ride it downtown to work every single day, as do many others in my community. I hope the government finds additional funding to keep the bus lines active and to service the many people in our areas. This would devastate so many people if taken away and impact so many lives

Oppose or support specific reductions.
OPPOSE: 28X AIRPORT FLYER (Major Reduction),
Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to school, daycare, or childcare
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Dear PRT,
The most troubling service change would be the shortening of the 28X, which would end at Carnegie Station instead of Shadyside.
Ending the 28X at Carnegie Staion would adversely affect out-of-state and international students attending Pittsburgh's universities. These students must travel from the airport to campus at the beginning of each semester, and vice versa at the end of the semester. These students (myself included) often do not possess a driver's license, much less a car. The current one-hour single-bus journey from the airport to Oakland would turn into a two-hour trip with two transfers. Thus, students traveling between school and PIT would likely opt for an Uber. This is very expensive, and I doubt Uber has the capacity to transport every flying student in the PGH area.
Being mindful of budget constraints, I propose that the 28X travel from the airport to downtown Pittsburgh at a frequency of 3N/A-6N/Amin. You could also introduce a higher fare for this route only to cover the budget gap.
Being the only public transit connection to the airport, it is important that the 28X be preserved despite budget constraints.
Thank you,
Erin Gorman-Stack.
P.S: I agree with the decision to preserve service levels of high-volume routes such as the P1, 8, 16, 51, 61, 71, 82, and 91. I believe this would allow PRT to maintain its ridership despite lower overall service levels.

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
One of my favorite things about living in Pittsburgh is the public transit. I understand that the issues with the budget were created at the state and not locally, however, I am so disappointed by the service cuts. I truly believe that Pittsburgh has the makings of a major city. We won't get there without public transit.
Please indicate if you oppose or support the proposed fare increases:

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to take ACCESS instead of fixed route service
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I am responding on behalf of the Sally and Howard Levin Clubhouse, a program of The Branch. We operate a psychiatric rehabilitation program with over 1,N/AN/AN/A members who access our facility, as well as volunteer and paid jobs, by public transportation and by Access. The proposed changes would not only extend travel times on the routes they typically travel (61 A, B C, 82/83 and 64) it would also limit their options if they are returning home late in the evening.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Fare increases would have a significant impact on the budgets of the people we serve, who largely exist on SSDI, Medicaid and Social Security. It would limit their ability to get to the Clubhouse, to work and to doctors' appointments.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
Many of our members are highly dependent on ACCESS to get to the Clubhouse and home again, as well as to medical appointments. Because they are on fixed incomes, a fare increase would have a significant negative impact and limit their ability to get to the places they need to go.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):

Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
When looking for a place to retire, along with access to good medical care, cultural events, universities, and safe and affordable neighborhoods, we knew that we wanted access to public transportation, as this would allow us to enjoy activities and access to services even as we became less comfortable with driving a private vehicle. When we found our single level home within walking distance of the Silver Line, we knew it was the right place for us to retire. The loss of access to the Silver Line would make staying in our home as we age much more difficult. While I understand the necessity of budgetary changes, completely closing off the Silver Line would shut off access to events in the city of Pittsburgh for many retired people living in the Bethel Park area. While it is still possible for us to drive to Washington Junction, the lot there is already packed and could not accommodate additional vehicles. We recently purchased a subscription for the 2N/A25-26 Pittsburgh Symphony; it would not be possible for us to support and attend these types of events in the future without access to nearby public transportation.
During tunnel construction, the Silver Line only ran in to Washington Junction on weekdays, where we would board a Red Line or Blue Line into the city. Rather than completely cut Silver Line service, running the Silver Line only into Washington Junction would allow access to the train for residents of this area, as well as service the municipalities between Library and Washington Junction. Riders could transfer and complete their commute into Pittsburgh on the Blue Line or increased Red Line service.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
While I do enjoy the benefits of the Senior Connect Card, I would definitely be willing to pay a fare to keep Silver Line service.

Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Public transport in my area (White Oak) is already non existent as it is. I go to West Mifflin for work and frequently bike over to Mckeesport to access their Transportation Center to get to my destination (even this is difficult despite the short bike ride because of the limited routes available to me that are actually safe). Reducing frequency and eliminating bus lines would make my commute more difficult, less flexible, and make it more costly to miss a bus. With more and more people I know being unable to afford a car, reducing public transportation robs young people from being able to afford to get around efficiently and effectively. Everyone should have the opportunity to get from home, to work, to the store, and back safely without needing to own a personal automobile. Not to mention the people that are unable to drive a car.
Cutting the funding to the public transportation will simply lead to not providing enough service to be effective and will significantly drop ridership which will lead to even more lost revenue.
I have a close friend that uses the T to get into work within Pittsburgh, reducing / eliminating T operations will make it more difficult for him to get to work on time and consistently.

The changes may not impact me but will impact my community and/or loved ones
My family uses public transportation intermittently and would most likely elect not to do so or look for other work opportunities where parking was not an issue.
Other comments (bus and rail service reductions):
I live in Crafton and my family and I have used the G2 and 28X to get to jobs, school, the airport, and events. The prohibitive cost of parking and rising costs for everything else (gas, car maintenance, housing, etc.) makes access to regular public transportation an essential need.

I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The 39 bus route is a big reason my husband & I bought our home in Brookline - the bus stop is literally at our door. I NEED to take the bus everywhere as I'm disabled - it's how I get to my job. I'm currently a Federal employee & it's bad enough that I go into work every day wondering if that day is the day I get let go for ridiculous reasons. These proposed service cuts are just more shit on top of the shit sundae my life has been in the past 3 years…so thank you for more stress & medical issues! These stress hives & digestive issues aren't going away for me anytime soon, that's for sure!
I also use public transportation for my many medical appointments (I see 6-7 different doctors, more than the average person), other appointments (i.e., therapist, psychiatrist, hair salon), special events (the Arts festival, 4th of July), & sporting events (Pirates & Penguins). I use it to meet friends that live clear across town, as Downtown is the middle. In the past, I also used it to go visit my husband in THREE different hospitals while he was battling cancer. Yes, THREE. Yes, cancer at 37 years old. I cannot & WILL NOT expect my husband or friends to rearrange their schedules to accommodate me. That's not fair to them, as they have their own lives & concerns.
If these service cuts go through, I will lose my ONLY source of income & become unemployed. The job market is not that great so there's no guarantee of finding another job that quickly. I will become a shut-in at the ripe old age of 44. Wow, I'll be truly living the dream then! I was a shut-in during COVID - not by choice. Never again!! Also, my husband & I will lose the house we fought for years to get - YEARS - as there's no way in hell we can afford it on just my husband's income.
In addition, the proposed service cuts will do a number on the population. I ride the bus with many Pittsburgh Public Schools students as well as those that go to the local colleges. What's the plan for them if these cuts go through - they just can't go to school then? Are they gonna learn from home? Not every class can do that. You need to think about the bigger picture here.
Also, not EVERYONE can afford to or even wants to drive or get a car (hello, me!). Many senior citizens & other disabled people (like me!) depend on public transportation to get around, too. This is a prime example of systemic discrimination, which is uneven access to public spaces due to socioeconomic status. Do you REALLY want to screw all of us over?
And how about that NFL Draft next year? How is it gonna look to the rest of the world when visitors can't even get around?! Pittsburgh will be a laughingstock…I mean, if that's what you want…? Why is all this money being spent on this draft when it should be going to other things?
I urge you to seriously reconsider your plan with these proposed service cuts. It may not affect you, which, must be nice - but guaranteed it will affect others that you know. It will make not only traffic but commute times worse for the Pittsburgh area. And let's not get started about the environmental impact of more cars on the road, too!

I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I purposely bought a town house at Summit Station from which I can walk to the Library T station to be able to take the T to various locations. Without it, I will likely move out of the county. My only reason for buying in Allegheny county was access to the T.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Service reductions during night time hours would harm commerce and encourage people who might normally use public transit to use personal vehicles at night, creating an increased risk of dangerous and intoxicated driving. Cutting routes out from under people will also make it impossible for some people to reach their jobs on time and further increase car dependency.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
I would have to switch to another mode of travel
Other comments (bus and rail fare increases):
Fares are a regressive tax on the poorest Pittsburghers, and should be reduced if not eliminated in favor of funding public transit as a public service for the benefit of all residents.

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
These changes will be catastrophic to our economic landscape, especially with the Draft on the horizon. There are already several people within my department in my place of employment who will be entirely unable to commute to our office in the Strip District if services are cut. These individuals (myself included) do not own a car, and some of them do not drive at all. This will clash with most employers mandating a hybrid work format for office jobs.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Since the pandemic, we've seen a shift in travel patterns resulting in an increase of off-shift and late-night trips and we know many of these people primarily rely on public transit to get around, especially to and from work or school. Without service after 11 PM, late night service workers and off-shift workers who rely on public transit will be left stranded and forced to find other options, even if cost is prohibitive. Service after 11, in addition to other recently proposed cuts, also means that any trips made for other reasons outside of work or school will also no longer be possible via public transit. Personally, as a regular transit rider and someone who is a zero-car household, having frequent, reliable public transit service available after 11 PM is extremely convenient and beneficial so I don't have to rely on expensive ridehail options which often include surge pricing making it more expensive and inconvenient.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Pittsburgh's fares are relatively high already compared to many other peer cities across the US. Increasing fares further only puts a greater strain on low-income individuals and families who already struggle to pay for daily, weekly, or monthly fares. Despite the state funding cliff and federal transit deficit, further investments must be made in the Allegheny Go program or to create additional low or no fare options and protections for the most vulnerable riders to ensure that riders who rely on this service most will be able to continue to rely on the service as a reliable travel mode.

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I use the bus multiple times a week to get to and from work. I have been using the buses almost everyday for the past 7 years and it has allowed me to live my life. The cuts will have a significant impact on my life, work, social life, and health. The PRT needs to receive sufficient funding. Routes should not be eliminated or restricted in a way that negatively impacts a Pittsburghers life. The people of Pittsburgh deserve and robust and functioning public transit system. Keep funding the PRT.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Public transit is already used by low income people. Most of these people do not have an extra $1 to spare. The fare should not be increased and instead should be subsidized by the wealthy people of Pittsburgh and Pennsylvania as a whole.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
ACCESS service should not be reduced. Everyone deserves a functional and effective public transit system. The city of Pittsburgh is responsible for offering sufficient ACCESS services to its citizens.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
I rely on other services and like to use other services that require the folks who work them to have transit to and from their jobs.
Other comments (bus and rail service reductions):
Dismantling the public transit system would lead to a spiral of disinvestment and weakening of the things i love about the city. We cannot fit more parked cars in many parts of the city. We need better public transit to support these crucial parts of the city, not less. Everyone across the county is worse off as these services are less accessible to all. It also leads to public safety risks, like increases in drunk driving, that we should be increasing access to public transit to reduce.

I won't be able to depend on a guaranteed ride
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I don't live with my family, and the family that does live near me aren't in good health. So I would not be able to rely on them for transportation.
Other comments (ACCESS service reductions):
I'm totally blind. Until 2020, I lived in Westmoreland County, where transportation is very limited. The primary reason I chose Allegheny County, was so that I would be able to use Access. My local family members aren't in good health, and I'm no longer able to count on them for transportation. Since I've moved into Allegheny County, I've had rides to medical appointments and tests, but I've also been able to build a social life. No transportation is the equivalent of no social life for someone who can't see to drive. I've had the opportunity to join an outdoor blindness organization, go on fitness walks and other outdoor events, join friends at restaurants, concerts, performances, and shopping. While physical health is important, mental health is equally important. Lack of socialization wasn't good for my mental health; I'm able to be so much more positive now that I'm able to get out, interact with other people, find things that I enjoy doing. I've discovered LAMP, which is a branch of the Carnegie Library for the Blind. They have programs there relating to technology, tactile graphics, and accessible games where I, along with other blind people, can learn and also have fun. My only way to and from these events is Access; without that option, I would no longer be able to participate. This service is life-changing for myself and so many other people. It's so much more than a ride to appointments; it's our ability to socialize, interact with others, work, volunteer, learn, and stay active. If these changes go into effect, I know I would have to move, although I have no idea where, or how I would afford such a move. Because I can't imagine going back to the life of isolation I lived before I moved into Allegheny County.
Please indicate if you oppose or support the proposed ACCESS fare increases:

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
These reductions are horrific. Although I'm fortunate enough to be in an area with direct access to downtown and nearby neighborhoods with less travel time needed, late outings with friends and trips to late sports events will require us to rely on ubers or cars, which will result in vastly increased travel expenses and congested parking. While there are plenty of people who take public transit who also have cars, I know many who choose transit because the parking space available in Pittsburgh is scarce and troubling. The city is full of bridges and narrow and winding roads. Rush hour during the work week already sees an overly congested Downtown and traffic at multiple standstills on bridges. Eliminating the silver line and getting rid / reducing service of so many bus stop locations is going to make this problem even worse beyond imagination. This is not about luxury and living comfortable. This is about common sense and sustaining livable conditions for our community's population. Pittsburgh cannot sustain more public transit service eliminations and reductions and expect to go on business as usual without overstuffed parking, roads, and people left without the ability to reach their workplaces, loved ones, or get home safe.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Pittsburgh already has one of the highest transit costs in the country. This fare increase is going to make a lot of my friends and community members with tighter incomes have to make harder choices to avoid taking transit that is already forcing them to work with tigher transit hours while paying more.

N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
These changes shift the burden from a public communal system to individuals. As a society, we should be making the lives of people easier, shouldn't we?
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I would support the fare increases ONLY if the services were not reduced.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
This is anecdotal, sure. But most bus rides I have been on have people with disabilities. These reductions will disproportionately impact them. It's really heartbreaking.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
I would be happy to pay more ONLY if the services are not reduced.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Pittsburgh's public transit system should be FOR the people and the people of this region live in all parts of the region. We cannot stand by and let so many lines get reduced or eliminated completely. Providing real, honest, and reliable transportation should be of utmost important for PRT and our region--we will die quickly without it. PRT is a lifeline to thousands and allows people to live their lives where they have family, children, support systems, jobs, places of worship, schools, and so much more. Without these lines we are saying to the region that we only prioritize our student population in the Universities, that the people who live here and pay taxes here and are responsible for making this County what it is today does not matter.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
My family, including my college student, would have a difficult time if these reductions were made. Frequent buses, on the 65 and 61 routes especially, make the city more navigable and more livable for us—especially as my husband and I age and driving becomes more difficult and dangerous. I worry about my kid working and studying and being out later than 11 p.m. It's important to note, however, that the proposed route reductions and inevitable reduction in ridership will affect not just transit users but all those who live here: more cars clogging Pittsburgh's narrow steep streets, more cars parking on sidewalks, more drunk drivers heading out into the night from bars and parties—not just to homes in Pittsburgh but to the suburbs as well.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Pittsburgh as a city and region will suffer irreparable harm if these service reductions take hold. We will be relegated to permanent 3rd class city status if service ends at 11pm and otherwise comes too infrequently or inconsistently to be reliable.
Please indicate if you oppose or support the proposed fare increases:

Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I work with WIC participants. Many of them rely on bus service to get their children to daycare or school, to get to work, to their doctor appointments, and to appointments like WIC. By cutting service, the lives of so many people who are already struggling will be made more difficult.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Many people cannot make ends meet already. Wages today are not increasing to meet needs. For lower income and middle income individuals like myself, this increase could make purchasing necessities, paying bills, or getting to work more difficult, if not impossible.

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I frequently take the 61 lines between my residence and various sporting events downtown and on the North Shore. After games, I often deal with long waits and packed buses (with all the students returning to Pitt and CMU campus) and on multiple occasions I have had to wait past 11 PM due to buses not arriving or being too full. A lack of service after 11 PM would leave me unable to trust the bus as a reliable means of transit, as there would be no guarantee that I wouldn't be left stranded. As parking for sporting events is exorbitant, this would then leave me unable to attend games.

Other comments (bus and rail service reductions):
Many local South Park residents use the Light Rail system and the busses. We use it to go downtown or to the North Shore. It's very convenient and saves time driving through all the traffic. There are many people who need the service as they have no other means of transportation. Don't eliminate service to us.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I ride the bus when the weather is bad. I mostly drive but I like to park and ride. It is very important for people in communities to be able to get to work, school, doctors appointments and shopping. The bus is great for sightseeing. When I ride the bus I get to see different places and learn directions. Some people fully rely on public transportation and I fully support PRT on receiving funding to keep our communities alive and thriving.
God bless us here in Pennsylvania! We need more buses and bus routes!

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I am deeply concerned how this will affect Pittsburgh's most vulnerable communities. So many people rely on PRT for life-sustaining activities and these proposed cuts have the potential to cause irreparable damage to families and individuals.
These proposed cuts can potentially cause a swift domino effect, yielding decreased air quality, increased traffic, and most of all decreased quality of life for all Pittsburghers.
The region has seen an increase in inclement weather. The proposed reduction PRT lines and service has the devastating power to directly affect the safety of riders.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):

Other comments (bus and rail service reductions):
The availability of excellent bus service (Busway, 28X, and routes to downtown) is one of the things that makes Pittsburgh a great city and a most livable city. I still drive, but within 5 or so years, I will become increasingly dependent on bus service. I hope you can find solutions to these problems and not have to compromise this wonderful service to our Western Pennsylvania communitites. For many years, I have bragged about how special the Busways are!!

How would you describe your gender identity? Select all that apply.
Woman
Which of the following best describes your 2024 household income?
N/A
Including yourself, how many people live in your household?
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
N/A
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
Other comments (bus and rail fare increases):
N/A

Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to my current job, training location, or will have to find a new job
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Eliminating Eastern Suburb buses to town will be disastrous for those who live in these communities. Travel time on the Parkway East is terrible during rush hours as it is with commuter buses. Eliminating bus commuter service would cripple the communities. Travel time into town for work would easily double into hours. Where are workers supposed to park and how are they to pay daily parking fees?
I have relied on the P16 for years to get to my downtown job. I 1N/AN/A% would look to find a new job outside of the city if there isn't a bus for my commute. The city already has lost so many workers. Eliminating the commuter services will have devastating effects on the city and the local communities.

I live in Forest Hills and commute to work in Oakland via the 69 or P68/P69/P76 + P3. I have loved the flexibility of my public transit commute, which will be significantly more difficult with the proposed service reductions. I moved to Pittsburgh just last year, thrilled that I could rely upon public transit. Now I am deeply concerned about my access to reliable transportation.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
If we as a city, as a state, as a nation, want our children to live in a world where using public transit is second nature, we must give them and their peers every opportunity to use the services. We need to encourage our communities to use public transit, to reduce complaints about service times and safety. We can't expect people to use services that don't exist. A system cannot build trust with users by reducing services.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I think it's expensive but I can afford the change. I'm concerned for my neighbors who may not be able to afford the change and will rely on other means especially in conjunction with reduced service. More barriers to use are bad for the longevity of PRT.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 1 FREEPORT ROAD (Major Reduction), 2 MOUNT ROYAL (Elim.), 58 GREENFIELD (Elim.), 64 LAWRENCEVILLE-WATERFRONT (Major Reduction), 65 SQUIRREL HILL (Elim.), 91 BUTLER ST (Major Reduction), P13 MOUNT ROYAL FLYER (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
All of the bus routes in my area would be drastically reduced or eliminated. As a senior citizen on a fixed income, I cannot afford other modes of transportation such as Uber.
Please indicate if you oppose or support the proposed fare increases:
No comment on proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
N/A
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I won't be able to depend on a guaranteed ride
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (ACCESS service reductions):
ACCESS is depended upon not only by myself but for many others in my area. Reducing ACCESS availability or increasing costs would hamper attending medical appointments and could result in further health issues
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for ACCESS or other essential expenses
Other comments (ACCESS fare increases):
For those on a fixed income, fare increases could result in not attending medical appointments

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
I would have to take ACCESS instead of fixed route service
Other comments (bus and rail service reductions):
If you eliminate rt4 in Troy hill, and cut run times for rt1 someone is going to get killed. The early morning rt4 (4N/A+?) patrons will be stretched out along a narrow sidewalk along rt28 during morning rush hour. You're cutting access to a service people rely on to reserve, Troy hill, spring garden and deutschtown to get to work, buy groceries, go to their banks, buy clothes, access other public services like schooling, libraries, and relief services like SNAP. It's not just an inconvenience, it's punitive. People will have to rely on ride services already stretching tight budgets. This is a service the community in Troy Hill and the surrounding areas rely on to survive. It's unconscionable to eliminate our one point of access for several communities, to resources and work. We need this bus line. It's not a perk or a favor the city does for us. It's a lifeline.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel
Other comments (bus and rail fare increases):
I'll pay an extra quarter to keep access to rt4 but a lot of people are going to be hurt by it.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Eliminating these bus routes would be terrible for the people and city of Pittsburgh. This will have a dire effect on the city's economy, environment, and productivity. These service cuts will haunt this city for years. People will loose access to jobs, healthcare, education, entertainment, and other essential services. Downtown businesses will suffer. People will loose jobs and job opportunities. The elderly, disabled, families (single parents, low income earners, students) will be neglected, stranded, and forgotten on these hills and valleys. Don't do this. There has to be a way to avoid this. Show us you care about the citizens of Pittsburgh. This city is already loosing residents and businesses. Don't take away the transportation service.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
If raising the price of the bus fare will keep our service in tact, then so be it. We'll deal with having to spend an extra .25 cents to get to where we need to go. It still remains a more affordable and efficient option for travel.

I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
Other comments (bus and rail service reductions):
Removing the buses and rail services would make it impossible for me and other individuals to make it into Pittsburgh daily for work and doctors appointments. Doing these cuts would cut off travel for thousands of people including those who don't have cars and would be left with nothing. I really think this needs to be rethought because it is not right

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
My child is a Pitt Student that heavily relies on public transit, including access to medical appointments, home, classes, work, etc
Other comments (bus and rail service reductions):
I would like my Pitt Student to be safe at night after classes, work and social events. I would like to see transit available to support community members, help reduce city traffic, support special events downtown, and to help keep drunk drivers off the roadways. Parking for civil service such as jury duty is untenable and compensation is insufficient to cover parking. Public transportation helps all those who are accessing county services, supporting our judicial system, and those participating in elections. Public transportation supports commerce at City restaurants and bars, as well as special event attendance, which contributes to local tax revenues.

I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
I am disabled and ride the Y49 Prospect Flyer to get everywhere. I can't walk distances to bus stops on 51. This would take away my ability to get to my job, to shop, to do anything. There has to be a way to fix this problem. The state should be helping to fund our transit. I'd even be willing to take a fare increase if it means I can still use the system to go where I need to go. Please, to all who are in charge of making these decisions...imagine yourselves in my place...in the place of the hundreds, thousands of Pittsburghers who depend on our transit system to navigate their daily lives. Please don't take away our livelihoods.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I would support fare increases if routes were not being cut as well. There should be a way to support transit if we're being charged more.

Other comments (bus and rail service reductions):
I oppose the Silver line cut because it is the only service south of Washington junction. If you need to cut a rail line, the Blue line is half Red and half Silver, so the Blue line should be cut. I usually get on the T at Library. You should start a new T service that would start at South Hills junction and run over Warrington and Arlington Avenues to Penn Station and back.

I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I take the O1 bus to and from work and you are eliminating it all together. Why???? I do not see why you eliminate a park n ride bus - basically the only bus besides the N/A12 that services the North Hills community. You eliminate this bus you will add to traffic congestion on the Parkway North, add to air pollution, not to mention where do you expect everyone to park once they get downtown???? Please do not eliminate the O1 Ross Park n Ride bus. Not everyone that lives in the North Hills suburbs have money to park downtown 5 days a week.....Yes, I come in to work 5 days a week. I do not have the luxury of working from home or have flex schedule.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
Other comments (bus and rail fare increases):
What would a fare increase do if you do not have people that can manage the money efficiently. You need to look at the spending - I am sure the big bonuses the upper management received this year could have helped save PRT. Why would you give bonuses when you knew you needed funding to keep PRT afloat??????

I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (ACCESS service reductions):
I am a senior citizen in a power wheelchair currently using the Access para transit system within Allegheny county. I was born with Spina Bifida and used leg braces and crutches for most of my life. This allowed me to go to college for post graduate degrees, work in Pittsburgh for over 35 years, drive with hand controls, get married, and own a home within Allegheny county. Using crutches caused problems with my arms and I had to resort to using Access during retirement. Proposed budget cuts threaten to cut off all services in the South Park area.
This is the only lifeline available for doctor and medical visits. There are people on dialysis who's life literally depend on this service. I question whether para transit belongs under the PRT instead of a Department of Human Services, since the service is provided by several independent companies, and none of the employees work for Pittsburgh Regional Transit. I would appreciate if you would investigate the best way to maintain this service. I am available for further discussion by phone at 412-833-4361.

Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Until I moved to Pittsburgh, transportation/commuting did not affect my quality of life. If you are fortunate enough to have a vehicle and afford gas in Pennsylvania, it is extremely difficult to drive in this city. The stress of driving into work downtown, driving to the grocery store in East Liberty, paying to park, plus navigating sports schedules and construction really started to take a toll on me. Every day, driving through Pittsburgh feels like an episode of Looney Toones with the road runner and the coyote. Except I don't know who is who. It quite literally makes you feel insane.
Then I discovered the busway and how simple it is to zip from the east end of town to downtown. I can say that it has improved my quality of life and I really feel like I am starting to love my city again.
This is one of the more privileged takes you will receive. My livelihood is not at stake, unlike thousands of my neighbors. I do not understand why state senate republicans can't correlate public transit with infrastructure. They are one and the same. They claim they want corporate investments, they want jobs, they want people to work. How can that happen without the support of a viable transportation system?
Lastly, the environmental effects of this will be disastrous. Pittsburgh already struggles with air quality. I know conservatives have a weird fixation on gasoline and actually prefer coughing on pollution. But if we were truly gifted this planet by a gracious creator, it is our responsibility to take care of it and the people who reside on it with us. That requires an investment, which I as a taxpayer am willing to make.

Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
To make the transit system less effective and increase fares is insulting, and will result in significantly reduced ridership, and cause young people to leave Pittsburgh, and cause people to move from communities that are already struggling.

Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Although I do not rely on the Silver Line T to get to work downtown, I would expect that not having it or reducing service for the T would likely cause the other T trains to be delayed. I have already been dealing with the delays due to construction, and I believe that there needs to be more funding and not less, spent on updating public transportation. My co-workers and I work to help people, who are in impoverished areas that rely a lot on public transportation, so cutting service for buses and the T would greatly affect them, not to mention my co-workers, who also use public transportation to commute to work.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Although I could still afford the bus pass, I would be unhappy with the increase in fare. The people my co-workers and I serve would likely have issues getting to medical appointments and other places since they rely on public transportation and do not necessarily have cars.

Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
Other comments (bus and rail service reductions):
Asbury Heights is a Senior Living Community on Bower Hill in Mt. Lebanon. We house and provide care for approximately 4N/AN/A residents at our facility and employ residents of the Pittsburgh area who rely on public transportation to get to and from work. Our employees range from Nurse Aides, Therapy providers, Food Service, Housekeeping, Certified Nurse Aides, Activities Coordinator. Our employees are a vital part of the care of our residents, and eliminating the 41 bus route would impact each of our employees who use public transportation in their ability to get to work and serve and care for our elderly population. Please consider keeping the bus route 41. Thank you.

Oppose or support specific reductions.
OPPOSE: P76 LINCOLN HWY FLYER (Elim.),
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
Other comments (bus and rail service reductions):
I live on Maryellen Drive off of Route 3N/A and rely on the P76 to take me into the city to get to both my cardiologist at Shadyside UPMC and my workplace on Penn Ave. I can neither afford or drive a car. I have congestive heart failure and rely on the P76 to not only get me to my workplace Monday through Friday, but also to get me to my heart doctor, Dr. Kancharla, at Shadyside UPMC. If the P76 is eliminated, I will either have to move from North Versailles where I reside or leave my work. I understand that these times are difficult but eliminating this bus route comes down to a matter of life and death for me. Please do not eliminate the P76 entirely. If you want to reduce the times, that's at least doable and better than the complete elimination of the route which is vital to my livelihood and my life. If you need proof of what I have stated here in this comment, I can provide you with it. My name is Jon and my number is 4124782262

Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Not having service after 11pm will greatly impact safety downtown. Many service workers rely on early or later buses and it would also prevent them from getting to and from jobs that they obviously need. I will be unable to get to my work location as well as my doctor's office. Not everyone can afford a card, and even if they could, this city has far too many cars on the road. We need MORE public transit, not less. Have you considered not giving any extra money to the CEO?

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
Reducing service sets Pittsburgh back forty years. Invest in our city. Invest in all our people.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Public transportation should not rely on fare increases. One of the ways that public transportation is viable is by being low-cost to users. That's part of the point.

Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: SV SILVER LINE LIGHT RAIL (Elim.),
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
see comment below
Other comments (bus and rail service reductions):
these reductions would limit my access to downtown and using the 28x to the airport. Also with the large number of apartments along the silver line many people in the community use this as their source of transportation for grocery shopping, transportation in general and transportation for employment.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
i would lose access to downtown pittsburgh for shopping and entertainment. we also use it to connect with the 28x flyer to the airport.
Other comments (bus and rail service reductions):
even if the silver line would remain as a shuttle would be helpful. plus the service needs to remain active after 11 pm. i have neighbors that rely on it for work and school.

Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
These changes would impact so many people. Alot of people who use public.transportation do not have a car nor could they afford one anytime soon. (Have you looked at rents around here? Have you looked at the minimum wage lately ?), or they simply cannot drive anymore. For some people this may literally leave them unable to work their current job--relocating may be impossible.

I spoke with a woman im Turtle Creek, not a wealthy area. She lives close but not on a bus route, lives on second floor of an older house which has a long steep flight of steps on outside of house-- I would not want to navigate these steps on any regular basis or if there was a fire. Her rent is $12N/AN/A/month, includes only water. It would be $15N/AN/A/month to live on first floor (a little more likely to be robbed) Sorry for long example but these are real people we are talking about, These cuts could literally drive some people into homelessness, making a bad situation worse. It is always the poor who suffer. Could we not fight for them ?????

Other comments (ACCESS service reductions):
I am writing to urgently request that my son's transportation route not be canceled. He relies on this service as he uses a power wheelchair and has no other means of getting to his day program. This program is not only essential to his daily routine, but it is also his only opportunity for social engagement and community involvement.

Canceling his route would cause significant hardship and leave him isolated without access to a vital support system. I respectfully ask that you consider the impact this would have on his well-being and make every effort to maintain his transportation as scheduled.

Thank you for your time and understanding. I am happy to provide any additional information or documentation you may need.

Sincerely,
Kim conley (mom of Kody)

Other comments (bus and rail service reductions):
Today, I take the bus into work at my office downtown almost every day. I am lucky enough to live near several buses I can take in the morning, but still the proposed service cuts would have a dramatic impact on my quality of life. Already, the buses I ride in the morning are full, not just with other commuters but with mothers and fathers taking their kids to school downtown. The proposed cuts would pack every morning bus and because I am on a later stop I imagine it would result in buses at capacity by the time they got to my stop.

Other comments (bus and rail service reductions):
I have used the rail and bus system for years. It was my only lifeline when I moved to Pittsburgh, in terms of transport. Without full service, I would have been cut off. People are going to lose their jobs, schedules, services and care with the number of cuts being proposed. It's not a good solution.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Cutting routes reduces access to public transit and decreases ridership, offsetting the initial cost savings from the route reductions. If routes are reduced, PRT will end up in this spot again in the future. Route reductions provide immediate relief on the budget, but for the long-term health of public transit in our region, we need to pursue reliable and consistent sources of funding.
Please indicate if you oppose or support the proposed fare increases:

Service change impacts (ACCESS)
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
I am writing to urgently request that my grandsons
transportation route not be canceled. He relies on this service as he uses a power wheelchair and has no other means of getting to his day program. This program is not only essential to his daily routine, but it is also his only opportunity for social engagement and community involvement.

Canceling his route would cause significant hardship and leave him isolated without access to a vital support system. I respectfully ask that you consider the impact this would have on his well-being and make every effort to maintain his transportation as scheduled.

Thank you for your time and understanding. I am happy to provide any additional information or documentation you may need.

Sincerely
Randi Scanlon (grandmother of Kody Conley)

Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 28X AIRPORT FLYER (Major Reduction),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I use the East End busway and the 28X airport bus frequently and have noted that the wait times for busway pickups could be greatly reduced,and the costs of running buses greatly reduced, if off-peak express buses could pick up and discharge people instead of flying by mostly empty. I can see many such buses going past before a P1 or P3 bus arrives to pick me up. In addition, bus service is not well-coordinated; for example at the East Liberty station if one wants to go downtown or to Oakland, one could wait on the side road for one bus line but then go into the station to wait for another bus line; there is no common place to get a bus, whatever its number, to go to some destination. It would help if all buses were to use a common platform - or a screen may show what bus is due to come and where to go to catch it.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
As a senior citizen I am sponsored to have free travel. But in general it may make sense for transit to be paid for by its users; but not the whole cost, since indirect social benefits should be paid from the common government funds.

I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I take the 13 and 16 to get to and from my home. I am right by Ohio River Blvd and there is no immediate access to a grocery store unless I have a car or the means to walk that day. I take these busses to pick up my medication and just to get to other hotspots in my neighborhood that meet convenience, cultural, and social needs (bookstore, CVS, library, farmers market, takeout/grocery store). My parents then live in Chartiers so I would take the bus to town only to discover the bus to them is eliminated and I have no way to get to them outside of ridesharing services which are disproportionately expensive compared to cost/distance in other major cities.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
If I need to take 2-3 busses to get to my destination and back (which is already liable considering the way our transit currently runs) thats already $18 both ways if you dont buy an all day pass (plans change you may or may not need it) not counting the probability of cutting event attendance short because busses will stop running after 11 pm. As a person who grew up in the time of jitney service I can definitely see it being revived without the middle man (see ride sharing) as people take commuting into their own hands and start relying on their neighbors again.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
We have stripped funding for public transportation for decades. We've failed to take action to just maintain, let alone improve or expand, public transit. This is a vital service for any growing city and is one of the most vital veins of a functioning city. We've deferred hard decisions and costs for short sighted or wrong headed decisions which has led to an absolutely terrible experience for the riders.
I believe we are addressing some inefficiencies with potential redesigns and relabeling of the bus routes (I'm not referring to this proposed gutting of the service but instead the Oakland/Downtown centric redesign) but the light rail is an absolute nightmare. We have stations 3N/A yards from the next station; we have outdated/unreliable trains; we have a very narrow service network; we have low platform stops, high platform stops, high platform stops that function as low platform stops.
One issue may have a solution that should be implemented or at least investigated relates to the confusing low/high platform stop structure and reducing fare skipping. Certain stops are noted as low platform stops where the second car doors will not open, trapping passengers. While the announcement tries to address this, it is only in English but still has a problem. There are stops where the platform is a high platform stop but the second car doors don't open because there isn't a booth attendant. This is absolutely infuriating. Riding the T, daily for work, I see at least 2 instances of people being trapped on the second car. One time a kid proved the doors open to stop from being trapped for several more stops which resulted in tripping safety sensors and the train had to be emptied and removed from service causing a 4N/A minute delay. A simple solution would be to get rid of fare booths at stations altogether and only have people pay on the cars. A second attendant should ride in the second car to take fares so all high platform stops can operate as such and this would clear up communication issues significantly especially for first time riders. This would only be necessary for rush hour times when two car trains operate. It could also designate doors as enter or exit only, helping with traffic flow at when loading and unloading passengers. This would greatly improve the experience and provide additional support for PRT employees when needing to deal with hostile customers, technical issues, and communication to the passengers.
Cutting costs by making service reductions will inevitably cause more harm then good. The focus should be on long term improvements to the rider experience. Communication is immediately addressable. Reliability is needed next which I believe is headed in the right direction with replacing the outdated trains. And further investment into transit related hosuing projects and expanding the service to where people want to go (strip district and lawrenceville) is imperative.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I don't see a way around fare increases due to the sheer scale of funds needed to improve the transit system in pittsburgh. I would only support the fare increase if the above service reductions are no longer considered. You cannot reduce service of an already terrible system AND ask people to pay more for it.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Access to the 19L line is critical for members of my community, and may would be cut off from access to places of work, child care, grocery shopping, and other critical needs without it.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
If the fare increase is necessary to maintain service, I support it. I would also support more financial assistance for those who are not at the same level of security that I am.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
Living in Washington County, the Silver Line rail service is the sole means of public transportation available to us. With the service being cut as it has been, it has placed a tremendous undue hardship on our being able to get to work on the North Shore in a timely and regular manner, to medical appointments, etc. It is ridiculous to make it so difficult for Washington County residents to get anywhere now. With the Silver Line running on a regular schedule as it was prior to the cuts, we could always count on the PRT.

I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
Cutting the Silver Line rail service is creating an undue hardship to me and many, many Washington County residents. What use to be a reliable and pleasant means of transportation has turned into a major hassle due to the elimination of the Silver schedule. The new options are not good and make it nearly impossible to continue working on the North Shore or going shopping or to medical appointments in that area. Please, please keep the Silver Line running on its original, reliable full schedule.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
I would have to take ACCESS instead of fixed route service
Other comments (bus and rail service reductions):
I am permanently disabled and can only travel in a power chair. I live in Mount Washington and use the incline and buses for travel to classes, museums, doctor's appts, grocery stores, pharmacies and social events. PRT allows me to live an independent life. Cutbacks to PRT bus, incline and the T will be devastating to me. I have lived in areas without robust public transportation and was essentially home-bound. PRT has given me back my life. Please do not cut the services that myself and others depend upon for daily travel.
Please indicate if you oppose or support the proposed fare increases:

Other comments (bus and rail fare increases):
I am not sure when the last fare increase took affect, but I do expect fares to rise slowly over time. If there is a funding shortfall, I would support this as necessary; however, I would prefer that our tax dollars encourage use of public transportation to build a stronger, healthier community and would prefer that fares were reduced to support that goal.

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The flyers are a valuable resource for those of us that work downtown. Eliminating these will cause many people to have to drive if they have the option or find a new job. Downtown is already struggling and taking away efficient access to those who work there just means they will find jobs elsewhere. Cutting the flyers does not only hurt the individuals riding but downtown as a whole. Less workers downtown means less people supporting businesses down there

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
We need to increase the use of public transit to reduce congestion and pollution. And it makes nonsense to cut service after 11 pm, especially if you want to encourage people to visit downtown and other cultural centers. Let's build a better more inviting mass transit rather than gutting it. Our roads and lungs can't handle the ever increasing pollution and congestion.

Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I think a major city should always maintain adequate transportation for its constituents. In order to grow and attract people to area it is essential not to reduce service which has downstream effects of increase traffic and decreased access to some areas that are not easily navigated by car or walking. I have lived in other areas with great transportation systems and it is not attractive to visit an area with poor access. Raise fares if you must and look at other efficiency measures. I'm sure this budget deficit is due to lack of oversight and the constituents should not be make to suffer as a result. Having used the bus in Pittsburgh in the past when I didn't have a vehicle, it was a life saver to get me to my job and other areas I needed to go. I fortunately do not rely on public transportation but I can't imagine not being able to get around this fine city and its suburbs because of service cuts. Thanks
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
These are marginal and probably less than some cities
For those whose income may not support an increase possible look at employee deductions or large employer groups subsidies for workers. Most people who use public transportation are elderly, lower income, and those who travel to the downtown area.
I'm sure there are some out of the box thinking that can be done to help solve the issue. What do other area of similar size do that have great transportation systems.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
Access is service is not the best anyway. I think a deep dive needs to happen as to how this service can be streamlined. I have her anecdotal experiences of people waiting long times to be picked up particularly seniors as well as some places others are being taken to are not appropriate for that type of service. Others pay for the service but do not utilize it. Again is there a way to subsidize this from large employers groups. I'm a user if you use load cards so those who utilize this service more would be adjusted accordingly.

I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
This is impacting millions of people beyond what you can even imagine. PRT systems was one of the pluses of moving to Pittsburgh, and these questionable choices are making me reconsider if this is really an accessible place for me and my family to be living. We may just need to find a different city, one that takes care of its people. But where can you find that these days? Nowhere... I am heartbroken that Pittsburgh has failed its community like this, and I truly thought that Pittsburgh was better than this.
Please indicate if you oppose or support the proposed fare increases:

I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
There are already people on the streets of YOUR city, begging for food, begging for shelter, begging for 75¢ to make the train home. Nothing in this case is helping or supporting your people. These are selfish acts of money driven decisions. This on top of closing the homeless shelters has left me extremely dissapointed in the city I chose to live in. This is not what I want for my family, and not an environment that fosters support.

I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Cutting bus routes such as Bus Line 39 Brookline, cuts hearts too. This would break my heart for the elderly riders I see so often taking this mode of transport. Not to mention, this would hurt my family directly because not having bus line 39 would greatly increase travel time to getting to UPMC hospital.
Please indicate if you oppose or support the proposed fare increases:

The changes may not impact me but will impact my community and/or loved ones
See my other comments below. Sometimes people prefer not to drive (or cannot drive).
Other comments (bus and rail service reductions):
I am opposed to these severe reductions in service. 1) Mass transit reduces traffic and pollution. 2) Mass transit provides freedom of travel for individuals who cannot drive (illness, injury, disability) or would prefer not to drive. These proposed draconian cuts do not further these valuable goals. It seems like we should increase mass transit, not decrease it.
I am particularly opposed to complete reductions in service on various routes and in various neighborhoods where there would be no service.
I live within a short walk of the Lytle stop on the Silver Line. Prior to the pandemic, I took what is now the Silver Line to Downtown nearly every weekday. Although my personal mass transit use has decreased significantly since the pandemic, I still consider living so close to the T to be a valuable asset. If the Silver Line is completely eliminated, particularly from Washington Junction to Lytle, the options are 1) drive or get a ride to the South Hills Village Line, or 2) walk a long way to get to the South Hills Village line, or 3) walk several blocks and take the MMVTA bus.
Please indicate if you oppose or support the proposed fare increases:

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I strongly oppose the proposed transit service cuts, which I believe are unacceptable and detrimental to many residents across the city. Reducing funding for PRT will have harmful downstream effects on Pittsburgh's future growth and economic vitality.
Reliable and accessible transit service plays a critical role in supporting the local economy. It enables students without cars to participate in educational and social activities and provides a viable transportation option for residents who own a car but cannot afford costly parking fees at workplaces, event venues like PNC Park, or downtown establishments.
Personally, I have often had to forgo activities in the city due to limited bus coverage or infrequent service. Each of these missed trips represents a lost opportunity for local businesses (e.g., restaurants, venues, and retailers) to benefit from resident spending. These service cuts risk suppressing this kind of economic activity.
Cutting transit service may appear to save money in the short term, but it undermines the city's long-term goals for growth, equity, and sustainability. I urge decision-makers to reconsider these cuts and prioritize investment in public transit as essential infrastructure for a thriving Pittsburgh.

OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I am writing in opposition to the proposed transit fare increases, which unfairly penalize those who already rely on and support the public transportation system. Transit commuters are being asked to pay more, while drivers, who contribute disproportionately to traffic congestion, air pollution, and road maintenance costs, face no equivalent burden.

If the city is serious about creating a more sustainable and financially viable transit system, fare increases must be paired with corresponding increases in parking costs. Raising the cost of driving would provide a more equitable balance and create real incentives for mode shift. This approach would not only reduce congestion but also increase transit ridership, improving the system's long-term financial health.

Transit fares alone cannot bear the weight of system funding. A pricing structure that places appropriate costs on driving would generate new revenue and help build broader public support for a transit system that benefits the entire city, not just those who ride it.

Other comments (bus and rail service reductions):
I work in a pediatrician's office just outside of Pittsburgh. Most of our patients use public transit to reach our office. Service cuts would prevent many of the children that are our patients from receiving the medical care that they need. Additionally, when I was working at Children's Hospital, much of the staff used public transit to get to work. Who is going to take care of the patients there if your transit cuts prevent nurses from getting to work?

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I won't be able to depend on a guaranteed ride
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel or rely on a family member or friend

I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Hi,
My name is Brendan Wissinger. I am a graduate student at the University of Pittsburgh studying public administration. I live at 38N/A6 Greensburg Pike in Forest Hills, PA. I grew up in rural central Pennsylvania. The county grew up has no public transit unless you are going to consider school buses public transit. I had to rely on my parents to do every thing until I was 22 and got my own car. My parents only had stick shift vehicles and because my parents understandably did not have the patience to teach how to drive a stick, they tried and I almost crashed. So for me to be able to drive, I needed a car, but to get a car I would need to work to help pay bills associated with it that my parents couldn't afford. But to get to work I needed a car. It felt impossible. I couldn't visit or go out with friends, I couldn't get a job. I couldn't get involved with activism like I am now because there was no choice except buying a car. For me when I went to college, it meant freedom to me, not because of leaving my parents but because I had transit, and I didn't have to depend on a car to go everywhere. Every person everywhere deserves adequate access to transit.
I depend on bus lines, namely bus lines 69 and 67 to back to my apartment in Forest Hill and get to school and to get to work in Wilkinsburg. Recently my car's transmission blew leaving me without a car for weeks. I had to walk 3N/A minutes to a bus stop, just to get to work and school. At one point I slipped on the ice and ended up bleeding. More recently I will be relocating again, and now relying on bus lines 58 and 93 to get to school. For me these transit cuts will be devastating. As one article put it, they are draconian.
There are many here that depend on these bus lines even more than me. Many that don't have the money for a car, or are disabled or many other issues. We must pressure our senators and representatives to raise funding to PRT.
I mean the draft is coming up. Do we really want people coming into Pittsburgh saying how terrible Pittsburgh is because of bus cuts.
But I do have two things for you all up here. First, as a nerd, I do not understand your proposed transit cuts, you seem focused on solving this deficit with cutting lines and frequency, instead of raising fares. If bus services are not frequent and comprehensive people can't rely on them, regardless of their cost. If taking the bus means that you'll be late to work or an appointment or that you might not be get back to your house or apartment then you simply won't use them regardless of their cost. And the vast majority of people unless they have no other choice will not take a bus 3 hours out of their way unless its their only choice. Cutting frequency and lines would just lead to a positive feedback loop where there isn't enough service, so people don't take the bus which means less money in fares which means bus line cuts, and so on and so forth. A more sensible solution if you're forced to make that choice is to raise fares to $4 for those who don't have a SNAP card.

I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I, as well as most of my fellow coworkers would no longer be able to get to work without the 14 Ohio Valley transit line. Also, with all routes stopping at 11pm would do this city and metro area a HUGE disservice. This is a metropolitan city, and the public transit stops at or before 11pm? This will inconvenience a lot of travelers, and make our city look bad. We have the NFL draft coming next year and no one can utilize public transportation after 11? We will look like a laughing stock not a city on the up and coming. Thats just my point of view, throughout the years bus service has continued to be cut, delayed and fares raise all at the same. And how many communities or neighborhoods as we like to call them can we keep cutting service to. When i moved here over 25 years ago it was so easy to get to almost anywhere in Allegheny County, now half locations have no service and a long layover to get to even the most popular destinations. Plus a lot of communties and destinations require a workforce that isn't local, they commute. This helps the local economies thrive and keeps the traffic low.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
If you cut the senior free rides I would not be able to get to interviews for employment, get to my job in decent weather or daylight hours, would increase my monthly expense to a place of burden and hardship and would increase the risk of homelssness for myself and far too many senior persons in our region.
Other comments (bus and rail service reductions):
I cannot tell if my area would lose service OR increase my travel time by your maps. However, i am opposed to you spending funds on any and all cosmetic new projects that are not merely increasing ADA, weather related rider safety including weather safety & accessibility until you are able to fully fund and expand any services that are needed for riders and restore any of the previous years reductions. And cut those developments down to the bare minimum yet not scrimp on the safety measures. Fix the concrete and roads necessary on the structures already standing. Do not add so they are aesthetically better. Sure your drawings are gorgeous but you cannot afford that if you have to cut service. We want and need bus service not less. You have your rider stats and where folks are using it. Please take into account those buses who have less folks on those routes. Maybe use and repaint some of the access vans to use them for those but have those owned and run by PRT in place of some of the busses. Maybe some of those riders on Access can travel in their cars instead of their vans instead. Fix whatever is there that needs replaced and fixed only. To do any new projects that is not absolutely necessary is a burden and creates hardship to not only individuals, families, and communities but employers and small businesses which equals our region's economy. No matter what,get yourself a couple of grant writers to get going on private funding in and out of state for our transit service. Work with the banks especially Bank of New York, Dollar and PNC private banking to solicit for you also on the muni bonds and utilize "Candid. Philanthropy News" to find private funding for service. There is no good reason ever to cut service to fund other projects or events (cultural or otherwise) or for any other reason. Service and safety regarding consumer rides and your driver's have to be first, foremost and at times your only priority. With all due respect, if you cannot focus on that, your executives and their budget proposals are sitting or standing in the wrong industry!
Thank you for this opportunity to share my voice.

Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I also think low income folks at or below the poverty line need to have reduced fares or provided passes from the Allegheny County or PA state offices along with TANF/food stamps so they can get to interviews and employment. I cannot imagine Governor Wolf and his administration would be opposed to that! The federal government may not support such a thing but maybe they would now that they want to increase work requirements for those on medical assistance. I would not oppose the fare increase if I knew you were not spending on any new or adding unnecessary non-essential projects mostly for aesthetic reasons. If you take away the free for senior prt rides, I would not be able to afford them to get to work as I need the income. My Social Security amount is not a livable amount unfortunately. I was not paid high enough wages nor a large enough inheritance to be able to retire and rents are enormous and too long of wait lines for public housing. Again, thank you for this opportunity to share my vocie in support of riders.

THese do not currently apply to me but would in the future when I am no longer healthy enough to work. THerefore, I know how impactful and dangerous this will be for seniors and those younger with mobility issues.
Other comments (ACCESS service reductions):
Not everyone especially seniors have family or friends still alive or geographically close enough to depend on. Not all younger folks with mobility issues have anavailable family member or friend who can take time off of work to transport them nor have wheelchair accessibility. There are not many taxis who drive those either I found when I was co-caregiving for my 93-98 yr old father (RIP) back in 2017. I heard from taxi drivers that has not changed.

Other comments (bus and rail service reductions):
I have been able to avoid buying a car and the thousands of dollars it costs to purchase and maintain a car thanks to PRTs current service levels. I've enjoyed PRT since a Pitt student and now into full employment and have been able to depend on it through my 12+ years living in Pittsburgh. I've made lifechanging home purchase decisions and work decisions based on where busses go (and dont) and I'm concerned I'd be forced to make another life changing decision if these proposed cuts go into effect. This would be a regression for the city and the region.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
Other comments (bus and rail fare increases):
I would certainly take less trips in a scenario where fares are more expensive and service is less available. Harrisburg should be working on a way to make transit fare-free through institutional and state funding mechanisms.

People that live in the North hills do not have many options for transit service . by taking away both the N/A1 and N/A12 and just leaving the 12 will cause disasters for peoples ability to get to work, including my own. we cannot have both options taken away. the 12 is set to run basically once an hour. what if the bus is a no show than you would have a 2 hour wait for the next bus with no other options ot take. Please do not take away these routes.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The reductions in service would deter me from being able to take the bus to my parents' house and to get downtown where I work. I already have to walk 15 min to get to the nearest bus stop, and the decreased frequency may mean that if I missed a bus I would wait an hour for the 15-min ride into downtown. Bus transit is a lifeline for our city, and so many people depend on it to get us safely and reliably to the places we need to go - please keep up the good fight to preserve the already minimal service we have.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Passing costs on to those who depend on transit is yet another barrier to those who already see buses as essential and costly.

I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I am bus dependent. Currently I can walk to Etna to take the 2 Mount Royal to visit my mom who was recently widowed. If that route is cut, I'd need to take something like Uber, or have her pick me up, neither of which I want to do. Plus, access to areas like McKnight would become much more difficult. Cutting service after 11:N/AN/A would be devastating as well because especially since I have moved to Sharpsburg and had better bus access than I did, I have been out past 11:N/AN/A for movies and whatnot. Not having that possibility would just be awful.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I take two busses to work and would not be able to leave my immediate neighborhood if bus service was lost. There are also no medical services in my immediate neighborhood. I don't drive or have a driver's license. I own my home and chose Brookline in particular because it has multiple bus routes, both of which are being eliminated. In the morning I also commute with children who would have no other way to get into the city for school or back home. I hope the city and state can work together to continue service. Im certain there is opportunity for optimizing the current system if someone were to look at routes and ridership data.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Folks who ride the bus typically need to because they simply can not afford to drive or are unable to. I would include people who primarily use the bus to get to and from work, school children, the elderly, and the disabled. Increasing the public transportation fee would keep people from working which would further decrease revenue. It would also make it impossible for others in Brookline to get the services they need.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Pittsburgh's public transportation has always been poor at best. Long wait times, inconsistent schedules, and gaps in service area. By reducing lines, you are stranding people and contributing to a culture where you MUST buy a car. Do not erode the public trust of public transportation any further.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
$3 for public transportation is higher than Seattle pricing, which has an incredibly higher cost of living to Pittsburgh

Oppose or support specific reductions.
OPPOSE: 28X AIRPORT FLYER (Major Reduction), SV SILVER LINE LIGHT RAIL (Elim.), RD RED LINE LIGHT RAIL (Major Reduction),
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Routes should be adjusted based on demand/usage. The rail lines and airport flyer seemed to be in high demand in my experience. I don't know about the other routes.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
These services should be able to fund themselves. If the fares are too low, raise them. I recognize that funding comes from different sources, but the amount of "upgrades" that have been ongoing for the past 2-3 years makes it very hard to believe the shortfalls are due to funding reductions. It seems much more likely that poor financial planning is leading to a system that is not justified by the available funding.

I would no longer be able to get to school, daycare, or childcare
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
My biggest concern is for the youth that live in Greenfield and attend schools downtown (for my daughter, CAPA). The proposal eliminates all buses through Greenfield to downtown...52L, 53L and the 58. That leaves only the 61C...which takes double the time. It would add at least an hour if not longer to my 12 year olds day. It is already scary to put 11 year Olds (age PPS provides bus passes instead of school buses) by limiting the routes so significantly.....children will be more vulnerable.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
You guys are spending too much money on the lite rail system, nothing is wrong with it, but you people don't give a shit about people that rely on buses, you are only worried about the stupid t rail which is bullshit. Thousands of people are going to lose their jobs because you people are to damn greedy.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I drive an electric vehicle, which will soon be subject to a $2N/AN/A state and a $25N/A federal "fee" to claw back my lack of gas tax revenue. If those punitive measures cannot be rescinded, at the very least, I would prefer that they be applied to public transit. Also, put a tax on airports (our Pittsburgh International, specifically) to support transit. If you're wealthy enough to fly out of a multi-million dollar "cathedral", have a little empathy for those who work for a living!
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Trump's "America" has no place for the working poor, and this fare increase is unfair to those who have to use PRT daily to reach their jobs. Find creative ways (a 1-cent per gallon county/region gas tax?) to help riders.
The oligarchs haven't created robots to do their dirty work as of today, so help those who do the lion's share of work in this country.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Since I am blind and can't drive, having bus service is really important to me. I am retired, but I use the buses to get to all of my fun volunteer activities. If there wasn't bus service, I could financially handle using a ride share service, but that would just add more traffic to our already busy and in a lot cases narrow streets. And for people who cannot financially afford to use ride share, either because they have a disability or can't afford a car, it would mean not going. We definitely need the funding!

I won't be able to depend on a guaranteed ride
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel or rely on a family member or friend
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
I am blind and use the over 65 Access program. I am still not clear how this funding crisis affects that program. If access were to be reduced, I might be able to use the buses or a share ride service. I am financially able to do that, but many people with disabilities do not have resources and losing Access options would be devastating. Those affected might not be able to go to medical appointments, jobs, training, and social events. We definitely need the updated funding.
Please indicate if you oppose or support the proposed ACCESS fare increases:

Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
Please do Not eliminate the 29 Robinson. It's the only bus that goes from my home to work in the West End.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
The fare increase is small. Seniors still ride free. The lower income and disabled still receive half price fares.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Reducing services to public transit will stifle growth of the economy as it wouldn't allow those who are unable to afford or use other methods of transportation will not be able to provide the freedom to spend money and the happiness to the community. It would limit access to jobs that are currently available through public transportation and without them, everyone loses as there are less people that are qualified for jobs. Public transportation is the backbone of the city and the alternative is costly for everyone as adding more cars on the road will make maintaining the roads more expensive. Construction projects to widen roads to accommodate more traffic will be costly. Buses and trains don't need wide roads and is safer for all people whether they're driving or not. Cutting funds for public transportation is not the answer, providing more alternatives to driving is the answer.

Oppose or support specific reductions.
OPPOSE: 28X AIRPORT FLYER (Major Reduction), 58 GREENFIELD (Elim.), 64 LAWRENCEVILLE-WATERFRONT (Major Reduction),
Service change impacts (bus and rail):
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
I would have to take ACCESS instead of fixed route service
Other comments (bus and rail service reductions):
I moved to Pgh. in '82, because it had a decent public transit system, and a great small neighborhood feel. Doing away with the 58 Greenfield bus (especially now that I've spent 4N/A years paying PAT/PRT, and have earned my Senior Pass) would mean additional usage of Access, which I understand is also on the chopping block.
This cut doesn't just affect me, but other seniors, working folks, and students who live in Greenfield, as well as those looking for an easy way to shop in Squirrel Hill, and access the 61C, 61D, and 64 buses on Murray Avenue, to shop at the Waterfront.

I won't be able to depend on a guaranteed ride
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (ACCESS service reductions):
Through 2024 and through probably most of this year, I will depend on Access as I rehab from knee surgeries. Not being able to schedule rides to medical appointments, or to pick up prescriptions (Giant Eagle doesn't deliver medications) would be a huge drain on my time, finances, and stress level. I don't own a vehicle of any kind, and am fast approaching 70.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
I would take less ACCESS trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
I would definitely limit my trips. Gone would be the trips to Squirrel Hill for a movie, the library, or shopping.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I purchased my home a year ago, and one of the driving forces behind my decision to live in this particular neighborhood was the accessibility of public transportation.
I live in Robinson township, in a cul-de-sac off of Steubenville Pike. Currently, that artery is served by the 24 West Park and the 29 Robinson busses. If PRT does not receive the $117 mm investment, the 29 bus will be eliminated. This will dramatically decrease the level of service my region receives; furthermore, the 24 bus is already highly congested when I ride it. For the riders of the 29 that happen to live along the route the 24 also serves, this would make the riding experience much more frustrating, as I've had the experience of riding a packed bus for 4N/A minutes and it is not an ideal way to start or end a day.
Public transportation builds community, it saves constituents' money, it takes cars off of the road and helps the environment, and in an era of constantly rising costs, it's a resource that will be increasingly relied upon. The pandemic impacted ridership, for understandable reasons. Though I fully embrace remote work, unfortunately, that benefit is decreasing for many employees, so the return to office initiatives will only increase commuting needs. As someone who worked Downtown for almost a decade, I hate to think about how much money I would have had to have spent in parking vs. the amount I saved riding the bus.
Both of these routes serve the Mall at Robinson and the various restaurants and shops on Steubenville Pike. This isn't just suburban workers needing access to the city, this service provides a lifeline to workers who are already paid far too little to access their places of employment. As a homeowner I am invested in this community. The taxes earned and the commerce at play here ensures the continued prosperity of my community, and to take away the access of these lower income workers to commute to work in an affordable fashion will have far-reaching consequences.
I can go on. I can go into serving the community of disabled persons, I can go into how maintaining a reliable public transportation system attracts a more youthful workforce to the area. Younger people do not embrace cars like prior generations. They hate the expense, they hate how unsafe cars are, they hate the frustration of driving. With the 2N/A26 NFL Draft coming to Pittsburgh next year, millions of eyes will be on this area. You never know if someone visiting the area will think "Hey, I kind of like this place. What more can they offer me? Is this somewhere I'd want to settle?" If their Google research reveals massive transit cuts that occurred a year go (given they would run a search in 2N/A26), it doesn't exactly reverse the identity of Pittsburgh being yet another rust belt city failing to emerge beyond simply being a blue collared city that is struggling to establish a more relevant presence in the global marketplace. Our charm of being folksy and hard-working is often portrayed as a character trait. But it's also our achilles heel. Let's evolve, let's attract a youthful workforce with an eye on the future, and stop making decisions that reinforce the idea that we are an area with continued population decreases, and a small market to overlook.
I had the opportunity to leave Pittsburgh a year ago, after living here for the majority of my life, to move to Seattle where public transportation is heavily invested in. I stayed, thinking maybe a brighter future can be achieved for this area. Maybe the buzz about being "The Most Livable" city, affordability, and an emerging tech sector would turn heads and give us attention beyond the tired old tropes of "Steel City" and "the place where they put fries on sandwiches." But cuts like this just limit growth, and tell people to look elsewhere for opportunity.
I have no doubt that this will be an enormous investment, to keep the PRT going at normal levels. Great! Invest in a brighter future, not immediate returns.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Public transportation is good for everyone and an important investment in our community and environment. Reductions in options will of course impact the most vulnerable disproportionately.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I would be in support of a minor increase. Though I wish as a country, city, etc. that we placed more value in community, environment, etc and these things would be more of a priority. But I realize the local government isn't in charge of these things completely. I also forgot to mention in a previous comment that many of our public school students rely on public transit to get to school.
Please indicate if you oppose or support the proposed changes to ACCESS service:

Other comments (bus and rail service reductions):
How??? How ? Is this even a consideration? How? Many people will lose there jobs because we can't get there ..or to the Dr. Or to the hospital we work at ...or home from our jobs when we don't get done till 11pm...how? But yet spend all this money on the NFL DRAFT...make it make sense .the draft will come and go ...we the people who live here will still be here....stuck...and suffering... because we have no means to move around the city . obviously no one who works at PRT depends on the bus to get to work!
This is irresponsible of the city to put us in this situation..the most livable city ..lol....for how long? No one's going to move to Pittsburgh..if u can't commute..or get to the theater..or anything else we have to offer ...just SAD!

Oppose or support specific reductions.
OPPOSE: 41 BOWER HILL (Elim.),
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
Other comments (bus and rail service reductions):
I am writing as the Director of Human Resources at Providence Point, a senior living community that depends greatly on the accessibility and reliability of the 41 Bower Hill bus line.
More than a dozen of our dedicated employees rely on this route daily to get to and from work. Many of them do not have access to other forms of transportation. The 41 Bower Hill line ensures they can show up on time and provide consistent, quality care to our residents. Losing this route would create a significant barrier to their employment—and, in turn, to our ability to deliver the level of service and support that our senior population needs and deserves.
Additionally, this route serves multiple senior living facilities and medical institutions in the area, including St. Clair Hospital. These organizations also employ workers who depend on this public transit option, many of whom work non-traditional shifts and provide essential care and support services. Reducing or eliminating the 41 Bower Hill bus line would disproportionately impact frontline workers, many of whom already face economic and transportation challenges. The ripple effects would be felt not only by the employees, but by vulnerable populations who rely on their service.
On behalf of Providence Point and the broader caregiving community along this route, I respectfully urge you to maintain the 41 Bower Hill line. Reliable public transit is not a luxury—it is a lifeline for workers, seniors, and the communities we serve.
Thank you for your consideration and commitment to equitable and accessible transportation.

Oppose or support specific reductions.
OPPOSE: Y49 PROSPECT FLYER (Elim.),
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
I am writing on behalf of Post Road Management, which manages Hillside Meadow Apartments and Skytop Village Apartments, to express our serious concern about the proposed elimination of the Y49 bus route.
Our properties provide affordable housing to many individuals for whom public transit is their only method of transportation. This includes new residents to the area, people living independently for the first time, and families on a fixed income. For them, the Y49 route is an essential lifeline, connecting them to jobs, medical appointments, grocery stores, and other necessities.
The accessibility provided by the Y49 was a primary reason many of our tenants chose to live in our communities. Eliminating this service would effectively isolate them, creating significant hardship and jeopardizing their ability to maintain their employment and access basic services. This decision would disproportionately harm a vulnerable population that relies on the city's public infrastructure.
We strongly urge you to reconsider cutting the Y49 bus route. It is a vital service that ensures the stability and well-being of hundreds of residents.
We are ready to assist in any way we can, including providing testimonials from residents, to help demonstrate the critical importance of this route.
Thank you for your consideration.

The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
I work with individuals who are blind or visually impaired. My students/clients/neighbors rely on ACCESS to get to medical appointments, services at agencies that provide training and resources (such as BVRS, now known as VisAbility), and to school. A world-class like Pittsburgh that prides itself on its neighborliness and high quality of life must maintain a strong public transportation system for EVERYONE, but particularly for people who have no other means for travel throughout the area, specifically people with disabilities and/or no personal transport (car, bike, scooter).
I am really quite upset and concerned about these proposed cuts. It's yet another example of how PA Republicans are looking to "cut taxes" for wealthy people without a thought for the public good. Republicans in the PA state house should give a damn about their constituents throughout the state who rely on community programs like public transportation that help ALL people—rich and poor. We are the richest country in the world and yet we act like a third-world nation. It's pathetic.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
I can sort of see fare increases for general bus riders but I know the folks who take ACCESS. For the most part they are on fixed incomes and an increase might make it unaffordable.

none, thanks for asking!

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 7 SPRING GARDEN (Elim.), 8 PERRYSVILLE (Major Reduction), 38 GREEN TREE (Elim.), 54 NORTH SIDE-OAKLAND-SOUTH SIDE (Major Reduction), 64 LAWRENCEVILLE-WATERFRONT (Major Reduction), 74 HOMEWOOD-SQUIRREL HILL (Major Reduction), 82 LINCOLN (Major Reduction), P17 LINCOLN PARK FLYER (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
Other comments (bus and rail service reductions):
The 38 Greentree I use for my medical appointments. My doctor is located in that area. The elimination of the P17 or reduced schedule for the 82 Lincoln would have a significant effect in terms of travel time from Lincoln Ave near the end of the 82 busline to downtown Pittsburgh.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I don't know what I'll do. I do not want to spend 50 minutes to an hour each way for going to work. Especially during Winter Season.

OPPOSE: 69 TRAFFORD (Major Reduction), P76 LINCOLN HWY FLYER (Elim.),
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
Other comments (bus and rail service reductions):
All of the Flyer routes use the East Busway. It has been a usefula nd efficient route to travel. If the Flyer routes, which are already downsized are eliminated, then who will use the busway ? It then becomes a waste of more money.
Those of us who live in East Mckeesport and North Versailles were cut off from regular travel schedules long ago. The flyers were a godsend. Now we will be left here in the lost land with no way to get close to the city and it's services.
At least try to offer two flyers in the morning, one early and one later and the same in the evening rush hour.

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Here below is the full text of my speech from the Thursday, June 12th public transit hearing. Due to time limits, I had to cut it short that day. For the record, my name is Patti Murphy, I live in Bethel Park, and my zip code is 15241.
Taking public transit is one of the best lasting habits I formed during my 64 years on this earth. As a little girl, I rode the bus or streetcar downtown with my mom, grandma, and sisters. I kept the habit going as a teenager to meet friends under Kaufmann's clock, as a working adult, and through my recent retirement. With my disabilities, I never learned to drive. Thank goodness for public transit. It's how I got here this morning.
Still, my husband, friends, and relatives are generous when I need a ride somewhere. Many more people are not so lucky and so plan their lives around bus and T schedules. Whether it's ultimately up to PRT, our state government, or both, restoring service to pre-pandemic levels is not too much for passengers to ask. We are the fifth most populous state, more people age 65 or older call Pennsylvania home than in 4N/A other states, and about 25% of our residents at any given time are living with disabilities. Yet, you're calling for the elimination of almost half of local public transit including my favorite bus route, the 36 Banksville. What you're proposing would be an embarrassment and deadly to our communities.
Sustainable public transit is important for everyone, not just people at a disadvantage. There will always be those who favor taking public transit over the hassle and expense of driving, navigating detours and finding parking. And what about the masses who take public transit to ballgames, festivals, sellout concerts, and such? All passengers are your customers. They pay taxes, vote, and count on public transit to be there. Mass transit is a traditional public service, not a controversy. You must find a way to save it. Now. Please. Let's not leave anyone stranded. Thank you.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I suppoort the fare increases as long as there are NO route / service cuts. Also, PRT needs to do a better job of marketing / promoting the reduced fares for senior citizens and people with disabilities.

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
These changes would devastate the city of Pittsburgh's transit users and put public transit in the city into the dreaded "death spiral" of service cuts --> reduced ridership --> service cuts, from which it will not recover without even greater investment from the state. Pittsburgh can be a world class city but it needs public transit to be even just a functional city. How are we supposed to host 75N/AK people for the NFL Draft without public transit?
I ride my bike to my bus stop and take the bus to work. I can switch to a car at great expense for parking and then add to the glut of private vehicles on the road. I used to live in NYC and didn't even own a car; I took the subway everywhere and my quality of life was so high because I didn't need to find parking or worry about traffic! I miss that so much. I'm not even asking for that in Pittsburgh; I'm asking to not take away the baseline level of public transit that's barely holding on. Public transit needs public investment because it's a public good. We all benefit from robust public transit; drivers benefit from having fewer cars to compete with in traffic and for parking; riders benefit by having more options of places to go and times to get there; businesses benefit by having access to a wider and deeper pool of employees and customers; there is no downside to greater investment in public transit.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):

Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Only 1 stop for ENTIRE MILLVALE AREA 13 blocks away from my home; due to disability unable to walk the 13 blocks; forced to catch uber/lyft to the ONE bus stop that services the Millvale area. Can't afford to do this however I NEED MY JOB
Other comments (bus and rail service reductions):
Only 1 stop for ENTIRE MILLVALE AREA 13 blocks away from my home; due to disability unable to walk the 13 blocks; forced to catch uber/lyft to the ONE bus stop that services the Millvale area. Can't afford to do this however I NEED MY JOB

I won't be able to depend on a guaranteed ride
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel or rely on a family member or friend
Other comments (ACCESS service reductions):
Twenty years ago we had our fully accessible home built less than 1/2-mile from a fixed route (41 B) because this guaranteed paratransit access. Since then my disabilities have only gotten more severe and my reliance on wheelchair accessible paratransit more vital. This access is not a convenience, it is a necessity. As a user of a motorized wheelchair, I am unable to hop into a friend's car and go. I am also blind, so I also cannot drive myself in an adapted family vehicle. I rely on paratransit service to get to doctor's appointments, my daughter's school activities, church, shopping, and every other location. By eliminating my paratransit because of fixed route bus elimination, you will eliminate any community access my disabilities already limit. I will be stranded and I already feel abandoned.
For me, the cost of fares is not a concern so long as I have the opportunity to use paratransit. If raising Access fares 50% or more is necessary to continue the service to those of us who are classified as "Unconditional" riders, I would be happy to pay for this vital life line. Please consider additional ways to continue providing paratransit services.

Urban redevelopment community- increase growth throughout the city. Without PRT we would not be able to get where we live, work, and play. We all benefit from transit. We can advance community infrastructure, make neighborhoods vibrant places to live, all with transit. We do not want to to invest in parking spaces. We should be investing in public transit communities. We need a dependent source of funding to keep Pittsburgh growing.

OPPOSE: 81 OAK HILL (Major Reduction), 82 LINCOLN (Major Reduction),
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
I see a possible discrimination in the re-routing of bus service that serves the Hill District
Other comments (bus and rail service reductions):
The proposed route change would create a hardship for the elderly and handicapped passengers who need access to the Market Square and Gateway center areas. It would also force people who work at night in those areas to have to walk up to Wood Street to get the bus. This Statement applies to routes 81, 82 and 83. It makes no sense to change the route now that there is a dedicated bus lane on Fifth Avenue which runs all the way down to Liberty Avenue. I find the proposed change as discriminatory to the people who ride the 81, 82 and 83, and see it as a possible violation of Title VI of the Civil Rights Act of 1964. There should be equal access provided to all residents, and " Short Looping " the 81, 82 and 83 is definitely not designed to give residents of the Hill District equal access on a previously long- established route.

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Lives in East Pittsburgh- must be hidden solutions to this complex problem. Are all possible solutions exhausted? This town grew up around public transportation. We would be ripping a vital organ out of a body. Sometimes the solution is not closing things but reinventing things
